

CONTINUING MEDICAL EDUCATION

Bronchiolitis:

An Update on the Evidence

Evelyn Montalvo Stanton, M.D.

March 13, 2020

Noon – 1:00 p.m.

2040 W. Charleston Blvd., Suite 519

Practice Gaps

1. Clinicians should be able to identify and diagnose patients with a clinical presentation of bronchiolitis, limiting the use of extensive diagnostic testing.
2. Although bronchiolitis is a condition commonly encountered in pediatrics, there is no single effective therapeutic agent; therefore, with an aim to provide high-value and high-quality care, clinicians should be aware that the main treatment plan for bronchiolitis is supportive care.

This activity is open to pediatric physicians, academic and community faculty, pediatric residents, pediatric nurses, and pediatric support staff.

Series Purpose and Objectives

Pediatric Grand Rounds series is focused on enhancing diagnostic, clinical, and treatment skills, including best-practice and evidence-based medical information and education. The goal of the series is not only to teach, but to actively engage participants. The series is intended to lead to improved patient care based upon an assessment of gaps in physician knowledge, competence, and performance.

Credit Designation Statement

The University Medical Center of Southern Nevada designates this live activity for a maximum of **1.0 AMA PRA Category 1 Credit™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Accreditation Statement

The University Medical Center of Southern Nevada is accredited by the California Medical Association (CMA) to provide continuing medical education for physicians.

Conflicts of Interest and Financial Disclosure

In order to assure the highest quality of certified CME programming, and to comply with the ACCME Standards for Commercial Support, the UMC Office of CME requires that all faculty, planners, and members of the UMC Educational Committee disclose relevant financial relationships with any commercial or propriety entity producing health care goods or services relevant to the content being planned or presented. No planners or presenters have relevant financial relationships to disclose.
