About Us

We are **LUXURY METALS COMPANY** a modern professional and proud of our sound reputation for providing quality products with outstanding customer service. We ensure unsurpassable flexibility and very high quality products & solutions to our clients.

and offer a complete line of architectural aluminum products, fabricated glass, all glass entrances, decorative glass and mirrors.

We have the products, equipment, and an experienced team to take projects from design concepts with the architect to final installation

We are committed to making sure our customers' orders are on time, meet the project specifications and that we are competitive in the market to ensure that we are on time, on spec, on cost.

What We Do

We use aluminum to provide a virtually maintenance-free exterior that resists the elements. Its high-definition details and versatility gives us the ability to provide any color you can imagine in practically any shape.

Our pioneering process of fabricating the aluminum gives you a thicker, stronger cladding than many of our competitors.

”

Why is Aluminium used in Glass Windows and Doors?

Aluminium is certainly the most popular material for door and window frames alike. This is due to its corrosion-resistant qualities. Frames made from aluminium are low maintenance, weatherproof, and last longer than frames manufactured from any other material.

believe in bringing out the true beauty of any given location. With our systems we can accomplish this by providing maximum clarity and natural light to your business or home. We strive to maximize energy efficiency with our one of a kind insulated glass. The quality of our insulated glass is unmatched in the industry.
