

# ACRACOATZ

## CURES, SEALS, DUSTPROOFS

**AcraCoatz** is a sprayable, acrylic copolymer that cures, seals, and dustproofs concrete. **AcraCoatz** is a tough impervious acrylic which retains moisture, curing the concrete for maximum hardness. This clear, fast drying, sprayable sealer is effective on both interior and exterior surfaces.

For curing and sealing newly placed concrete when a high solid, high water retentive membrane curing compound is required. Suitable for commercial and industrial applications, including sidewalks, patios, driveways, factories, distribution centers, office buildings, warehouses and other areas where positive sealing and dustproof performance are needed. Ideal for stamped and patterned and colored concrete. Use on exposed aggregate to intensify the colors.

## BENEFITS & FEATURES

**Protects concrete  
from dusting**

**Applies easily  
with conventional  
spray equipment**

**Curing & sealing  
properties**

**Satin Finish**

**CONCORD SEALERS**

# CURES

**Curing plays an important role on the strength development and durability of concrete.** Curing takes place immediately after concrete is placed and helps to maintain the desired moisture and temperature conditions of the concrete. When concrete is cured properly it maintains an adequate amount of moisture for the concrete to receive continued hydration which allows for the development of strength, volume stability, resistance to freezing, thawing, and abrasion and scaling resistance.

# SEALS

Applying a concrete sealer to your flooring is extremely beneficial.

- Sealing **protects concrete from damage and wear.**
- Sealing **protects concrete from mold and mildew.**
- Sealing concrete **increases, it's longevity.**
- The **appearance of concrete is improved** by sealing.
- **Prevents concrete from dusting** and becoming chalk-like.

# DUSTPROOFS

Floor dusting is the most common issue for concrete to face. When you walk on an unsealed concrete slab, it can stir up dust which causes hygiene issues and can be problematic. Dusting can also cause serious problems with durability and quality of your flooring. **Applying AcraCoatz dustproofs your concrete surfaces.**
