

AQUACOATZ CONCRETE PROTECTION

AquaCoatz is a new generation 100% reactive, waterborne silane-siloxane sealer. It is a unique odorless VOC compliant formulation that offers permanent, invisible, non-yellowing protection to concrete surfaces. **AquaCoatz** protects concrete against moisture penetration, snow, deicers, chloride salts and rebar corrosion.

BENEFITS & FEATURES

**Environmentally
Safe**

**Penetrating
Protection**

VOC Compliant

Non-Slip

Hydrophobic

**Resistant to
Water & Salt**

AQUACOATZ CONCRETE PROTECTION

Compare Penetrating AquaCoatz to Acrylic Sealers

AquaCoatz

- Penetrates Top Layer of Concrete
- Chemically Reactive
- Does Not Wear Off
- Unaffected By Solvents
- Excellent Road Salt Protection
- Natural Surface
- Maintains Slip Resistance
- Reapply in 5 – 10 Years

Acrylic Cure & Seal

- Forms Surface Membrane
- Chemically Inert
- Wears Off
- Dissolved By Solvents
- Some Road Salt Protection
- Glossy Surface
- May Be Slippery When Wet
- Reapply in 1 – 2 Years

AquaCoatz or AquaCoatz Plus?

AquaCoatz

AquaCoatz is ideal for normal duty, cast-in-place concrete with moderate exposure to salt and/or water.

AquaCoatz Plus

AquaCoatz Plus is ideal for increased long-term protection on porous concrete, elevated structural concrete slabs, and on normal concrete with severe exposure to salt and water.
