

Environment Policy

AMBIENTE
Biohazard certified
Cleaning Services

1. Our Statement

Ambiente FM Ltd is committed to protecting and improving the environment in which we operate. We recognise that our cleaning services have an environmental impact, and we are dedicated to minimizing this footprint through responsible and sustainable practices. Our commitment extends to our employees, clients, and suppliers, as we work together to promote a healthier and greener future.

This policy is a living document and will be reviewed annually to ensure its continued relevance and effectiveness.

2. Policy objectives

Our key environmental objectives are to:

- Comply with, and exceed where possible, all applicable environmental legislation and codes of practice.
- Ensure that environmental factors are considered in all business decisions, including procurement and daily operations.
- Measure and continually improve our environmental performance by reducing resource consumption, waste, and emissions.
- Use environmentally responsible products and methods that do not compromise the quality of our service.
- Train and encourage our employees to work in an environmentally responsible manner.
- Communicate our environmental policy to all staff, clients, and suppliers.

3. Specific commitments and actions

To achieve our objectives, [Company Name] will implement the following actions:

Sustainable cleaning products

- **Use eco-friendly products:** We will prioritize the use of cleaning products with recognized ecolabels, such as the EU Ecolabel, that are biodegradable and free from harsh chemicals like phosphates, chlorine, and ammonia.
- **Concentrated formulas:** We will use highly concentrated cleaning agents with accurate dosage systems to minimise packaging waste, reduce transport emissions, and ensure efficient use.
- **Site-made solutions:** Where possible, we will adopt innovative systems to create chemical-free cleaning solutions on-site, further reducing our reliance on traditional chemicals and single-use plastics.

Efficient equipment and consumables

- **Water and energy efficiency:** We will invest in modern, energy-efficient cleaning equipment, such as vacuum cleaners with HEPA filters and machines designed to reduce water consumption.
- **Reusable materials:** We will replace disposable items with reusable alternatives wherever possible, including washable microfibre cloths, mop heads, and refillable spray bottles.
- **Recyclable items:** Where possible we will use items manufactured from recycled materials such as toilet paper, handtowels and mop buckets.
- **Daytime cleaning schedules:** We will optimise cleaning schedules, such as implementing daytime cleaning, to reduce electricity usage and improve energy efficiency.

Waste management and recycling

- **Waste reduction:** We will work to minimise the generation of waste at its source by using durable products and concentrating our chemicals.
- **Segregation and recycling:** We will responsibly sort, and store waste generated from our operations, including paper, plastic, glass, and cardboard, and ensure it is collected by a licensed waste carrier.
- **Responsible disposal:** We will establish clear protocols for the safe and compliant disposal of hazardous waste, such as chemical containers.

Transport and logistics

- **Route planning:** We will optimise our transportation routes to reduce fuel consumption and minimize carbon emissions.
- **Efficient vehicles:** We will select and maintain company vehicles with environmental issues in mind, considering fuel efficiency and lower emissions.
- **Alternative transport:** We will encourage and support employees in using car-sharing, public transport, cycling, or walking where practical.

4. Our responsibility

- **Senior management:** The company's management will provide the resources, training, and support needed to implement this policy and will review it annually.
- **Employees:** All employees are responsible for adhering to this policy, participating in training, and suggesting ways to improve our environmental performance.
- **Suppliers and partners:** We will work with suppliers and subcontractors who share our commitment to environmental protection and encourage them to adopt similar standards.

- **Clients:** We will actively work with our clients to achieve mutual goals concerning environmental issues and support their sustainability efforts.
 - **5. Communication and review**
This policy is available to all employees, clients, and the public on our website. It will be formally reviewed and updated on 5th November 2026 and signed by a senior company director to ensure ongoing commitment.
-

Signed:

Mr Paul Dorrell
