Independent Auditor's Report

To the Honorable Mayor And the Board of Commissioners Pinebluff, North Carolina

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Pinebluff, North Carolina, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall financial statement presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Pinebluff, North Carolina as of June 30, 2021, and the respective changes in financial position and cash flows, where appropriate, thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Local Government Employees' Retirement System's Schedules of the Proportionate Share of the Net Pension Liability and Contributions and the Law Enforcement Officers' Special Separation Allowance schedules of the Changes in Total Pension Liability and Total Pension Liability as a Percentage of Covered Payroll be presented to supplement the basic financial statements. Such information, although not a required part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements of the Town of Pinebluff, North Carolina. The combining and individual fund statements, budgetary schedules, and other schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund statements, budgetary schedules, and other schedules are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, based on our audit, the procedures performed as described above, the combining and individual fund statements, budgetary schedules, and other schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

W Greene, PLLC

Whiteville, North Carolina November 30, 2021 As management of the Town of Pinebluff, we offer readers of the Town of Pinebluff's financial statements this narrative overview and analysis of the financial activities of the Town of Pinebluff for the fiscal year ended June 30, 2021. We encourage readers to read the information presented here in conjunction with additional information that we have furnished in the Town's financial statements, which follow this narrative.

Financial Highlights

- The assets and deferred outflows of resources of the Town of Pinebluff exceeded its liabilities and deferred inflows at the close of the fiscal year by \$5,324,503 (net position).
- The government's total net position increased by \$361,565, primarily due to an increase in various tax revenues within the governmental activities.
- As of the close of the current fiscal year, the Town of Pinebluff's governmental funds reported combined ending fund balances of \$2,623,545 with a net increase of \$403,077 in fund balance. Approximately 17.83 percent of this total amount, or \$467,713, is non-spendable or restricted.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$1,881,472, or 132.05 percent of total general fund expenditures for the fiscal year.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to Town of Pinebluff's basic financial statements. The Town's basic financial statements consist of three components; 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements (see Figure 1). The basic financial statements present two different views of the Town through the use of government-wide statements and fund financial statements. In addition to the basic financial statements, this report contains other supplemental information that will enhance the reader's understanding of the financial condition of the Town of Pinebluff.

Required Components of Annual Financial Report

Basic Financial Statements

Detail

The first two statements (pages 18 through 21) in the basic financial statements are the **Government-wide Financial Statements**. They provide both short and long-term information about the Town's financial status.

The next statements (pages 22 through 33) are **Fund Financial Statements**. These statements focus on the activities of the individual parts of the Town's government. These statements provide more detail than the government-wide statements. There are three parts to the Fund Financial Statements: 1) the governmental funds statements, 2) the budgetary comparison statements; and 3) the proprietary fund statements.

The next section of the basic financial statements is the **notes**. The notes to the financial statements explain in detail some of the data contained in those statements. After the notes, **supplemental information** is provided to show details about the Town's individual funds. Budgetary information required by the General Statutes also can be found in this part of the statements.

Government-wide Financial Statements

The government-wide financial statements are designed to provide the reader with a broad overview of the Town's finances, similar in format to a financial statement of a private-sector business. The government-wide statements provide short and long-term information about the Town's financial status as a whole.

The two government-wide statements report the Town's net position and how it has changed. Net position is the difference between the Town's total assets and deferred outflows of resources and total liabilities and deferred inflows of resources. Measuring net position is one way to gauge the Town's financial condition.

The government-wide statements are divided into two categories: 1) governmental activities; and 2) business-type activities. The governmental activities include most of the Town's basic services such as administration, streets and highways, and public safety. Property taxes and State and federal grant funds finance most of these activities. The business-type activities are those that the Town charges customers to provide. This includes the water and sewer services offered by the Town of Pinebluff.

The government-wide financial statements are on pages 18 through 21 of this report.

Fund Financial Statements

The fund financial statements (see Figure 1) provide a more detailed look at the Town's most significant activities. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town of Pinebluff, like all other governmental entities in North Carolina, uses fund accounting to ensure and reflect compliance (or non-compliance) with finance-related legal requirements, such as the General Statutes or the Town's budget ordinance. All of the funds of Town of Pinebluff can be divided into two categories: governmental funds, and proprietary funds.

Governmental Funds – Governmental funds are used to account for those functions reported as governmental activities in the government-wide financial statements. Most of the Town's basic services are accounted for in governmental funds. These funds focus on how assets can readily be converted into cash flow in and out, and what monies are left at year-end that will be available for spending in the next year. Governmental funds are reported using an accounting method called *modified accrual accounting* that provides a short-term spending focus. As a result, the governmental fund financial statements give the reader a detailed short-term view that helps him or her determine if there are more or less financial resources available to finance the Town's programs. The relationship between government activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is described in a reconciliation that is a part of the fund financial statements.

The Town of Pinebluff adopts an annual budget for its General Fund, as required by the General Statutes. The budget is a legally adopted document that incorporates input from the citizens of the Town, the management of the Town, and the decisions of the Board about which services to provide and how to pay for them. It also authorizes the Town to obtain funds from identified sources to finance these current period activities. The budgetary statement provided for the General Fund demonstrates how well the Town complied with the budget ordinance and whether or not the Town succeeded in providing the services as planned when the budget was adopted. The budgetary comparison statement uses the budgetary basis of accounting and is presented using the same format, language, and classifications as the legal budget document. The statement shows four columns: 1) the original budget as adopted by the Board; 2) the final budget as amended by the Board; 3) the actual resources, charges to appropriations, and ending balances in the General Fund; and 4) the difference or variance between the final budget and the actual resources and charges. To account for the difference between the budgetary basis of accounting and the modified accrual basis, a reconciliation showing the differences in the reported activities is shown at the end of the budgetary statement.

Proprietary Funds – Town of Pinebluff has one kind of proprietary fund. Enterprise Funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The Town of Pinebluff uses enterprise funds to account for its water and sewer activity. This fund is the same as those functions shown in business-type activities in the Statement of Net Position and the Statement of Activities.

Notes to the Financial Statements – The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements are on pages 34 through 62 of this report.

Other Information – In addition to the basic financial statements and accompanying notes, this report includes certain required supplementary information concerning the Town of Pinebluff's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found beginning on page 64 of this report.

Interdependence with Other Entities: The Town depends on financial resources flowing from, or associated with, both the federal government and the State of North Carolina. Because of this dependency, the Town is subject to changes in specific flows of intergovernmental revenues based on modifications to federal and State laws and federal and State appropriations. It is also subject to changes in investment earnings and asset values associated with U.S. Treasury Securities because of actions by foreign governments and other holders of publicly held U.S. Treasury Securities.

Unrestricted	1,982,436		1,749,742	1,043,336		956,916	3,025,772		2,706,658
Total net position	\$ 3,754,747	\$	3,441,075	\$ 1,569,756	\$	1,521,863	\$ 5,324,503	\$	4,962,938

As noted earlier, net position may serve over time as one useful indicator of a government's financial condition. The assets and deferred outflows of the Town of Pinebluff exceeded liabilities and deferred inflows by \$5,324,503 as of June 30, 2021. The Town's net position increased by \$361,565 for the fiscal year ended June 30, 2021. However, a large portion (34.39%) reflects the Town's net investment in capital assets (e.g., land, buildings, machinery, and equipment) less any related debt still outstanding that was issued to acquire those items. The Town of Pinebluff uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Town of Pinebluff's net investment in its capital assets is reported net of the outstanding related debt, the resources needed to repay that debt must be provided by other sources, since the capital assets cannot be used to liquidate these liabilities. An additional portion of the Town of Pinebluff's net position, \$467,713, represents resources that are subject to external restrictions on how they may be used. The remaining balance of \$3,025,772 is unrestricted.

Several particular aspects of the Town's financial operations positively influenced the total unrestricted governmental net assets:

• Continued diligence in the collection of property taxes by maintaining a tax collection percentage of 99.36%. The statewide average in fiscal year 2021 was 98.96%.

Governmental activities. Governmental activities increased the Town's net position by \$313,672, thereby accounting for 87% of the total increase in the net position of the Town of Pinebluff. Key element of this increase is as follows:

Net increase in property taxes and various other taxes and permits.

Business-type activities. Business-type activities increased the Town of Pinebluff's net position by \$47,893, thereby accounting for 13% of the total increase in the net position of the Town.

Financial Analysis of the Town's Funds

As noted earlier, the Town of Pinebluff uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the Town of Pinebluff's governmental funds is to provide information on near-term inflows, outflows, and balances of usable resources. Such information is useful in assessing the Town of Pinebluff's financing requirements.

The general fund is the chief operating fund of the Town of Pinebluff. At the end of the current fiscal year, Town of Pinebluff's fund balance available in the General fund was \$2,377,262, while total fund balance reached \$2,623,545. The Town currently has an available fund balance of 166.85% of general fund expenditures, while the total balance represents 184.13% of the same amount.

At June 30, 2021, the governmental funds of Town of Pinebluff reported a combined fund balance of \$2,623,545 with a net increase in fund balance of \$403,077.

General Fund Budgetary Highlights. During the fiscal year, the Town revised the budget on several occasions. Generally, budget amendments fall into one of three categories: 1) amendments made to adjust the estimates that are used to prepare the original budget ordinance once exact information is available; 2) amendments made to recognize new funding amounts from external sources, such as federal and State grants; and 3) increases in appropriations that become necessary to maintain services.

Revenues were more than the budgeted amounts primarily because of an increase in State shared revenues and taxes that the Town originally had expected to receive. Total expenditures were held below budgeted amounts.

Proprietary Funds. The Town of Pinebluff's proprietary funds provide the same type of information found in the government-wide statements but in more detail. Unrestricted net position of the Water and Sewer Fund at the end of the fiscal year amounted to \$1,043,336. The total change in net position for the water and sewer fund was an increase of \$47,893.

Capital Asset and Debt Administration

Capital assets. The Town of Pinebluff's investment in capital assets for its governmental and business—type activities as of June 30, 2021, totals \$3,446,872 (net of accumulated depreciation). These assets include buildings, land, vehicles, infrastructure, and equipment.

Major capital asset transactions during the year include the following additions (there were no significant demolitions or disposals):

• Equipment purchased in Governmental Activities for \$8,807 and Business-type Activities for \$2,936.

Town of Pinebluff Outstanding Debt

The Town of Pinebluff's total debt increased by \$4,732 during the fiscal year, primarily due to increases in pension related debt.

North Carolina general statutes limit the amount of general obligation debt that a unit of government can issue to 8 percent of the total assessed value of taxable property located within that government's boundaries. The legal debt margin for Town of Pinebluff is \$11,064,166. The Town of Pinebluff does not have any authorized but unissued debt at June 30, 2021.

Additional information regarding the Town of Pinebluff's long-term debt can be found beginning on page 60 in the Notes to the Financial Statements.

Budget Highlights for the Fiscal Year Ending June 30, 2022

Governmental Activities: Budgeted expenditures in the General Fund are expected to increase. The tax rate is expected to remain the same in the upcoming year.

Business-type Activities. Utility rates in the Town will increase by 10% for the next year. Fund balance has been appropriated in the amount of \$155,000.

Requests for Information

This report is designed to provide an overview of the Town finances for those with an interest in this area. Questions concerning any of the information found in this report or requests for additional information should be directed to the following:

Notes to the Financial Statements For the Year Ended June 30, 2021

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Town of Pinebluff conform to generally accepted accounting principles as applicable to governments. The following is a summary of the more significant accounting policies:

A. Reporting Entity

The Town of Pinebluff is a municipal corporation that is governed by an elected mayor and a five-member council. As required by generally accepted accounting principles, these financial statements present the Town.

B. Basis of Presentation

Government-wide Statements: The statement of net position and the statement of activities display information about the primary government. These statements include the financial activities of the overall government. Eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the *governmental* and *business-type activities* of the Town. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for the different business-type activities of the Town and for each function of the Town's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expense allocations that have been made in the funds have been reversed for the statement of activities. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the Town's funds. Separate statements for each fund category – governmental and proprietary – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as non-major funds.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as subsidies result from non-exchange transactions. Other non-operating revenues are ancillary activities such as investment earnings.

Notes to the Financial Statements (Continued) For the Year Ended June 30, 2021

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Basis of Presentation – Fund Accounting (Continued)

The Town reports the following major governmental fund:

General Fund. The General Fund is the general operating fund of the Town. The General Fund accounts for all financial resources except those that are required to be accounted for in another fund. The primary revenue sources are ad valorem taxes, State grants, and various other taxes and licenses. The primary expenditures are for public safety, street maintenance and construction, and sanitation services. Additionally, the Town has legally adopted a Capital Reserve Fund and the Cemetery Fund. Under GASB 54 guidance these funds are consolidated in the General Fund. The budgetary comparisons for these funds have been included in the supplemental information.

The Town reports the following major enterprise fund:

Water and Sewer Fund. This fund is used to account for the Town's water and sewer operations.

C. Measurement Focus and Basis of Accounting

In accordance with North Carolina General Statutes, all funds of the Town are maintained during the year using the modified accrual basis of accounting.

Government-wide and Proprietary Fund Financial Statements. The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus. The government-wide and proprietary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the Town gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Town enterprise fund are charges to customers for sales and services. The Town also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the water and sewer system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses,

Notes to the Financial Statements (Continued) For the Year Ended June 30, 2021

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus and Basis of Accounting (Continued)

and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Governmental Fund Financial Statements. Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

The Town considers all revenues available if they are collected within 90 days after year-end, except for property taxes. Ad valorem taxes receivable are not accrued as a revenue because the amount is not susceptible to accrual. At June 30, taxes receivable for property other than motor vehicles are materially past due and are not considered to be an available resource to finance the operations of the current year. Also, as of September 1, 2013, State law altered the procedures for the assessment and collection of property taxes on registered motor vehicles in North Carolina. Effective with this change in the law, the State of North Carolina is responsible for billing and collecting the property taxes on registered motor vehicles on behalf of all municipalities and special tax districts. Property taxes are due when vehicles are registered. The billed taxes are applicable to the fiscal year in which they are received. Uncollected taxes that were billed in periods prior to September 1, 2013 and for limited registration plates are shown as a receivable in these financial statements and are offset by deferred inflows of resources.

Sales taxes and certain intergovernmental revenues, such as the utilities franchise tax, collected and held by the State at year-end on behalf of the Town are recognized as revenue. Sales taxes are considered a shared revenue for the Town of Pinebluff because the tax is levied by Moore County and then remitted to and distributed by the State. Most intergovernmental revenues and sales and services are not susceptible to accrual because generally they are not measurable until received in cash. All taxes, including those dedicated for specific purposes are reported as general revenues rather than program revenues. Under the terms of grant agreements, the Town funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Thus, when program expenses are incurred, there is both restricted and unrestricted net position available to finance the program. It is the Town's policy to first apply cost-reimbursement grant resources to such programs, followed by categorical block grants, and then general revenues.

Notes to the Financial Statements (Continued) For the Year Ended June 30, 2021

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Budgetary Data

The Town's budgets are adopted as required by the North Carolina General Statutes. An annual budget is adopted for the General Fund and the Enterprise Fund. All annual appropriations lapse at the fiscal-year end. All budgets are prepared using the modified accrual basis of accounting. Expenditures may not legally exceed appropriations at the functional level for all annually budgeted funds and at the project level for the multi-year funds. All amendments must be approved by the governing board. The budget ordinance must be adopted by July 1 of the fiscal year or the governing board must adopt an interim budget that covers that time until the annual ordinance can be adopted.

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Fund Equity

1. Deposits and Investments

All deposits of the Town are made in board-designated official depositories and are secured as required by State law [G.S. 159-31]. The Town may designate, as an official depository, any bank or savings association whose principal office is located in North Carolina. Also, the Town may establish time deposit accounts such as NOW and SuperNOW accounts, money market accounts, and certificates of deposit.

State law [G.S. 159-30(c)] authorizes the Town to invest in obligations of the United States or obligations fully guaranteed both as to principal and interest by the United States; obligations of the State of North Carolina; bonds and notes of any North Carolina local government or public authority; obligations of certain non-guaranteed federal agencies; certain high quality issues of commercial paper and bankers' acceptances and the North Carolina Capital Management Trust (NCCMT). The Town's investments are generally reported at fair value. The NCCMT-Government Portfolio, a SEC-registered (2a-7) money market mutual fund, is measured at fair value. Because the NCCMT Government has a weighted average maturity of less than 90 days, it is presented as an investment with a maturity of less than 6 months.

In accordance with State law, the Town has invested in securities which are callable and which provide for periodic interest rate increases in specific increments until maturity. These investments are reported at fair values as determined by quoted market prices.

2. Cash and Cash Equivalents

The Town pools money from several funds to facilitate disbursement and investment and to maximize investment income. Therefore, all cash and investments are essentially demand deposits and are considered cash and cash equivalents.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Fund Equity (Continued)

3. Restricted Assets

Powell Bill funds are classified as restricted cash because they can be expended only for the purposes of maintaining, repairing, constructing, reconstructing or widening of local streets per G.S.136-41.1 through 136-41.4. Money pursuant to loan requirements are classified as restricted because of the requirements set forth by the USDA in the loan contract. Customer deposits held by the Town before any services are supplied are restricted to the service for which the deposit was collected.

Town of Pinebluff Restricted Cash					
Governmental Activities		_			
General Fund					
Streets	\$	163,038			
Pursuant to Loan Requirements		58,392			
Total Governmental Activities		221,430			
Business-type Activities					
Water and Sewer Fund					
Customer Deposits		84,397			
Total Restricted Cash	\$	305,827			

4. Ad Valorem Taxes Receivable

In accordance with State law [G.S. 105-347 and G.S. 159-13(a)], the Town levies ad valorem taxes on property other than motor vehicles on July 1st, the beginning of the fiscal year. The taxes are due on September 1st (lien date); however, interest does not accrue until the following January 6th. These taxes are based on the assessed values as of January 1, 2020. As allowed by State Law, the Town has established a schedule of discounts that apply to taxes that are paid prior to the due date. In the Town's General Fund, ad valorem tax revenues are reported net of such discounts.

5. Allowances for Doubtful Accounts

All receivables that historically experience uncollectible accounts are shown net of an allowance for doubtful accounts. This amount is estimated by analyzing the percentage of receivables that were written off in prior years.

6. Inventory

The inventories of the Town are valued at cost (first-in, first-out), which approximates market. The Town's inventory consists of expendable supplies that are recorded as expenditures when purchased.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Fund Equity (Continued)

7. Capital Assets

Capital assets are defined by the government as assets with an initial, individual cost of more than a \$5,000 cost and an estimated useful life in excess of two years. Donated capital assets received prior to June 30, 2015 are recorded at their estimated fair value at the date of donation. Donated capital assets received after June 30, 2015 are recorded at acquisition value. All other purchased or constructed capital assets are reported at cost or estimated historical cost. General infrastructure assets acquired prior to July 1, 2003, consist of the road network and water and sewer system assets that were acquired or that received substantial improvements subsequent to July 1, 1980, and are reported at estimated historical cost using deflated replacement cost. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

	Estimated
Asset Class	Useful Lives
Infrastructure	30
Buildings	50
Improvements	25
Vehicles	6
Furniture and Fixtures	10
Equipment	10
Computer Equipment	3
Software	3

8. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *Deferred Outflows of Resources*, represents a consumption of net position that applies to a future period and so will not be recognized as an expense or expenditure until then. The Town has one item that meets this criterion, pension deferrals for the 2021 fiscal year. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *Deferred Inflows of Resources*, represents an acquisition of net position that applies to a future period and so will not be recognized as revenue until then. The Town has two items that meets the criterion for this category – property taxes receivable and pension deferrals.

Notes to the Financial Statements (Continued) For the Year Ended June 30, 2021

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Fund Equity (Continued)

9. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method that approximates the effective interest method. Bonds payable are reported net of the applicable bond premiums or discount. Bond issuance costs, except for prepaid insurance costs, are expensed in the reporting period in which they are incurred. Prepaid insurance costs are expensed over the life of the debt.

In fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

10. Compensated Absences

The vacation policy of the Town provides for the accumulation of up to thirty (30) days earned vacation leave with such leave being fully vested when earned. For the Town's government-wide and proprietary funds, an expense and a liability for compensated absences and the salary-related payments are recorded as the leave is earned. The Town has assumed a first-in, first-out method of using accumulated compensated time.

The Town's sick leave policy provides for an unlimited accumulation of the number of days of earned sick leave. Sick leave does not vest, but any unused sick leave accumulated at the time of retirement may be used in the determination of length of service for retirement benefit purposes. Since the Town does not have any obligation for the accumulated sick leave until it is actually taken, no accrual for sick leave has been made.

Notes to the Financial Statements (Continued) For the Year Ended June 30, 2021

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Fund Equity (Continued)

11. Net Position/Fund Balances

Net Position

Net position in government-wide and proprietary fund financial statements are classified as net investment in capital assets; restricted; and unrestricted. Restricted net position represents constraints on resources that are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or imposed by law through state statute.

Fund Balances

In the governmental fund financial statements, fund balance is composed of five classifications designed to disclose the hierarchy of constraints placed on how fund balance can be spent.

The governmental fund types classify fund balances as follows:

Nonspendable Fund Balance – This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Restricted Fund Balance – This classification includes amounts that are restricted to specific purposes externally imposed by creditors or imposed by law.

Restricted for Stabilization by State statute - North Carolina G.S. 159-8 prohibits units of government from budgeting or spending a portion of their fund balance. This is one of several statutes enacted by the North Carolina State Legislature in the 1930's that were designed to improve and maintain the fiscal health of local government units. Restricted by State Statute (RSS), is calculated at the end of each fiscal year for all annually budgeted funds. The calculation in G.S. 159-8(a) provides a formula for determining what portion of fund balance is available for appropriation. The amount of fund balance not available for appropriation is what is known as "restricted by State statute". Appropriated fund balance in any fund shall not exceed the sum of cash and investments minus the sum of liabilities, encumbrances, and deferred revenues arising from cash receipts, as those figures stand at the close of the fiscal year next preceding the budget. Per GASB guidance, RSS is considered a resource upon which a restriction is "imposed by law through constitutional provisions or enabling legislation." RSS is reduced by inventories and prepaids as they are classified as nonspendable. Outstanding Encumbrances are included within RSS. RSS is included as a component of Restricted Net position and Restricted fund balance on the face of the balance sheet.

Restricted for Streets – Powell Bill portion of fund balance that is restricted by revenue source for street construction and maintenance expenditures. This amount represents the balance of the total unexpended Powell Bill funds.

Restricted for Loan Requirements – portion of fund balance that is restricted due to the requirements in the loan contract with the USDA.

Notes to the Financial Statements (Continued) For the Year Ended June 30, 2021

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Fund Equity (Continued)

11. Net Assets/Fund Balances (Continued)

Committed Fund Balance – portion of fund balance that can only be used for specific purposes imposed by majority vote by quorum of Town of Pinebluff's governing body (highest level of decision-making authority). The governing body can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

Committed for Future Capital Outlay- portion of fund balance committed by the Board for future capital outlays.

Committed for Veterans Memorial – portion of fund balance committed by the Board for the Town's veteran's memorial.

Committed for Perpetual Care – portion of the fund balance that has been budgeted by the Board to be retained in perpetuity for maintenance of the Town cemetery.

Assigned Fund Balance – portion of fund balance that Town of Pinebluff intends to use for specific purposes.

Subsequent year's expenditures – portion of fund balance that is appropriated in the next year's budget that is not already classified in restricted or committed. The governing body approves the appropriation; however the budget ordinance authorizes the manager to modify the appropriation by resource or appropriation within funds up to 10% of the departmental appropriation.

Unassigned fund balance – portion of fund balance that has not been restricted, committed, or assigned to specific purposes or other funds.

The Town of Pinebluff has a revenue spending policy that provides guidance for programs with multiple revenue sources. The Finance Officer will use resources in the following hierarchy: bond proceeds, federal funds, State funds, local non-Town funds, Town funds. For purposes of fund balance classification expenditures are to be spent from restricted fund balance first, followed in-order by committed fund balance, assigned fund balance and lastly unassigned fund balance. The Finance Officer has the authority to deviate from this policy if it is in the best interest of the Town.

12. Defined Benefit Cost-Sharing Plans

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Local Governmental Employees' Retirement System (LGERS) and additions to/deductions from LGERS' fiduciary net position have been determined on the same basis as they are reported by LGERS. For this purpose, plan member contributions are recognized in the period in which the contributions are due. The Town of Pinebluff's employer contributions are recognized when due and the Town of Pinebluff has a legal requirement to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of LGERS. Investments are reported at fair value.

II. DETAIL NOTES ON ALL FUNDS

A. Assets

1. Deposits

All the deposits of the Town are either insured or collateralized by using one of two methods. Under the Dedicated Method, all deposits that exceed the federal depository insurance coverage level are collateralized with securities held by the Town's agents in this unit's name. Under the Pooling Method, which is a collateral pool, all uninsured deposits are collateralized with securities held by the State Treasurer's agent in the name of the State Treasurer. Since the State Treasurer is acting in a fiduciary capacity for the Town, these deposits are considered to be held by the Town's agents in its name. The amount of the pledged collateral is based on an approved averaging method for non-interest bearing deposits and the actual current balance for interest-bearing deposits. Depositories using the Pooling Method report to the State Treasurer the adequacy of their pooled collateral covering uninsured deposits. The State Treasurer does not confirm this information with the Town or the escrow agent. Because of the inability to measure the exact amounts of collateral pledged for the Town under the Pooling Method, the potential exists for under-collateralization, and this risk may increase in periods of high cash flows. However, the State Treasurer of North Carolina enforces strict standards of financial stability for each depository that collateralizes public deposits under the Pooling Method. The Town has no formal policy regarding custodial credit risk for deposits but relies on the State Treasurer to enforce standards of minimum capitalization for all pooling method financial institutions and to monitor them for compliance. The Town complies with the provisions of G.S. 159-31 when designating official depositories and verifying that deposits are properly secured.

At June 30, 2021, the Town's deposits had a carrying amount of \$3,515,787 and a bank balance of \$3,564,411. Of the bank balance, \$250,000 was covered by federal depository insurance and the remainder was covered by collateral held under the pooling method.

2. Receivables - Allowances for Doubtful Accounts

The amounts presented in the Balance Sheet and the Statement of Net Position for the year ended June 30, 2021 are net of the following allowances for doubtful accounts:

Fund		06/30/2021
General Fund:		
Taxes receivable	\$	500
Total General Fund		500
Enterprise Fund:		
Utilities receivable		4,300

B. Liabilities

1. Pension Plan Obligations

a. Local Governmental Employees' Retirement System

Plan Description. The Town of Pinebluff is a participating employer in the statewide Local Governmental Employees' Retirement System (LGERS), a cost-sharing multipleemployer defined benefit pension plan administered by the State of North Carolina. LGERS membership is comprised of general employees and local law enforcement officers (LEOs) of participating local government entities. Article 3 of G.S. Chapter 128 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. Management of the plan is vested in the LGERS Board of Trustees, which consists of 13 members - nine appointed by the Governor, one appointed by the State Senate, one appointed by the State House of Representatives, and the State Treasurer and State Superintendent, who serves as ex-officio members. The Local Governmental Employees' Retirement System is included in the Annual Comprehensive Financial Report for the State of North Carolina. The State's Annual Comprehensive Financial Report includes financial statements and required supplementary information for LGERS. That report may be obtained by writing to the Office of the State Controller. 1410 Mail Service Center, Raleigh, North Carolina 27699-1410, or by calling (919) 981-5454 or at www.osc.nc.gov.

Benefits Provided. LGERS provides retirement and survivor benefits. Retirement benefits are determined as 1.85% of the member's average final compensation times the member's years of creditable service. A member's average final compensation is calculated as the average of a member's four highest consecutive years of compensation. Plan members are eligible to retire with full retirement benefits at age 65 with five years of creditable service, at age 60 with 25 years of creditable service, or at any age with 30 years of creditable service. Plan members are eligible to retire with partial retirement benefits at age 50 with 20 years of creditable service or at age 60 with five years of creditable service (age 55 for firefighters). Survivor benefits are available to eligible beneficiaries of members who die while in active service or within 180 days of their last day of service and who have either completed 20 years of creditable service regardless of age (15 years of creditable service for firefighters and rescue squad members who are killed in the line of duty) or have completed five years of service and have reached age 60. Eligible beneficiaries may elect to receive a monthly Survivor's Alternate Benefit for life or a return of the member's contributions. The plan does not provide for automatic post-retirement benefit increases. Increases are contingent upon actuarial gains of the plan.

Notes to the Financial Statements (Continued) For the Year Ended June 30, 2021

II. DETAIL NOTES ON ALL FUNDS (Continued)

B. Liabilities (Continued)

1. Pension Plan Obligations (Continued)

a. Local Governmental Employees' Retirement System (Continued)

LGERS plan members who are LEOs are eligible to retire with full retirement benefits at age 55 with five years of creditable service as an officer, or at any age with 30 years of creditable service. LEO plan members are eligible to retire with partial retirement benefits at age 50 with 15 years of creditable service as an officer. Survivor benefits are available to eligible beneficiaries of LEO members who die while in active service or within 180 days of their last day of service and who also have either completed 20 years of creditable service regardless of age, or have completed 15 years of service as a LEO and have reached age 50, or have completed five years of creditable service as a LEO and have reached age 55, or have completed 15 years of creditable service as a LEO if killed in the line of duty. Eligible beneficiaries may elect to receive a monthly Survivor's Alternate Benefit for life or a return of the member's contributions.

Contributions. Contribution provisions are established by General Statute 128-30 and may be amended only by the North Carolina General Assembly. Town of Pinebluff employees are required to contribute 6% of their compensation. Employer contributions are actuarially determined and set annually by the LGERS Board of Trustees. Town of Pinebluff's contractually required contribution rate for the year ended June 30, 2021, was 10.90% of compensation for law enforcement officers and 10.15% for general employees and firefighters, actuarially determined as an amount that, when combined with employee contributions, is expected to finance costs of benefits earned by employees during the year. Contributions to the pension plan from the Town of Pinebluff were \$36,231 for the year ended June 30, 2021.

Refunds of Contributions – Town employees who have terminated service as a contributing member of LGERS, may file an application for a refund of their contributions. By state law, refunds to members with at least five years of service include 4% interest. State law requires a 60 day waiting period after service termination before the refund may be paid. The acceptance of a refund payment cancels the individual's right to employer contributions, or any other benefit provided by LGERS.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2021, the Town reported a liability of \$169,023 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2020. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2019. The total pension liability was then rolled forward to the measurement date of June 30, 2020 utilizing update procedures incorporating the actuarial assumptions. The Town's proportion of the net pension liability was based on a projection of the Town's long-term share of future payroll covered by the pension plan, relative to the projected future payroll covered by the pension plan of all participating LGERS employers, actuarially determined. At June 30, 2020 (measurement date), the Town's proportion was 0.00473%, which was an increase of 0.00062% from its proportion measured as of June 30, 2019.

B. Liabilities (Continued)

1. Pension Plan Obligations (Continued)

a. Local Governmental Employees' Retirement System (Continued)

For the year ended June 30, 2021, the Town recognized pension expense of \$59,428. At June 30, 2021, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	 red Outflows Resources	Deferred Inflows of Resources		
Differences between expected and actual				
experience	\$ 21,345	\$	-	
Changes of assumptions	12,579		-	
Net difference between projected and actual				
earnings on pension plan investments	23,785		-	
Changes in proportion and differences				
between Town contributions and				
proportionate share of contributions	8,705		5,604	
Town contributions subsequent to the				
measurement date	36,231		-	
Total	\$ 102,645	\$	5,604	

\$36,231 reported as deferred outflows of resources related to pensions resulting from Town contributions subsequent to the measurement date will be recognized as a decrease of the net pension liability in the year ended June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30:	
2022	\$ 16,542

Actuarial Assumptions. The total pension liability in the December 31, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 3.0 percent

Salary Increases 3.50 to 8.10 percent, including inflation and

productivity factor

Investment Rate of Return 7.00 percent, net of pension plan investment

expense, including inflation

The plan currently uses mortality tables that vary by age, gender, employee group (i.e. general, law enforcement officer) and health status (i.e. disabled and healthy). The current mortality rates are based on published tables and based on studies that cover significant portions of the U.S. population. The healthy mortality rates also contain a provision to reflect future mortality improvements.

The actuarial assumptions used in the December 31, 2019 valuation were based on the results of an actuarial experience study for the period January 1, 2010 through December 31, 2014.

Future ad hoc COLA amounts are not considered to be substantively automatic and are therefore not included in the measurement.

B. Liabilities (Continued)

1. Pension Plan Obligations (Continued)

a. Local Governmental Employees' Retirement System (Continued)

The projected long-term investment returns and inflation assumptions are developed through review of current and historical capital markets data, sell-side investment research, consultant whitepapers, and historical performance of investment strategies. Fixed income return projections reflect current yields across the U.S. Treasury yield curve and market expectations of forward yields projected and interpolated for multiple tenors and over multiple year horizons. Global public equity return projections are established through analysis of the equity risk premium and the fixed income return projections. Other asset categories and strategies' return projections reflect the foregoing and historical data analysis. These projections are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class as of June 30, 2020 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Fixed Income	29.0%	1.4%
Global Equity	42.0%	5.3%
Real Estate	8.0%	4.3%
Alternatives	8.0%	8.9%
Credit	7.0%	6.0%
Inflation Protection	6.0%	4.0%
Total	100%	

The information above is based on 30 year expectations developed with the consulting actuary for the 2019 asset, liability, and investment policy study for the North Carolina Retirement Systems, including LGERS. The long-term nominal rates of return underlying the real rates of return are arithmetic annualized figures. The real rates of return are calculated from nominal rates by multiplicatively subtracting a long-term inflation assumption of 3.00%. All rates of return and inflation are annualized.

II. DETAIL NOTES ON ALL FUNDS (Continued)

B. Liabilities (Continued)

1. Pension Plan Obligations (Continued)

a. Local Governmental Employees' Retirement System (Continued)

Discount rate. The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of the current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Town's proportionate share of the net pension liability to changes in the discount rate. The following presents the Town's proportionate share of the net pension liability calculated using the discount rate of 7.00 percent, as well as what the Town's proportionate share of the net pension asset or net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00 percent) or one percentage point higher (8.00 percent) than the current rate:

	1%	Discount	1%
	 Decrease (6.00%)	 Rate (7.00%)	 Increase (8.00%)
Town's proportionate share of			
the net pension liability (asset)	\$ 342,929	\$ 169,023	\$ 24,495

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued Annual Comprehensive Financial Report for the State of North Carolina.

II. DETAIL NOTES ON ALL FUNDS (Continued)

B. Liabilities (Continued)

1. Pension Plan Obligations (Continued)

b. Law Enforcement Officers Special Separation Allowance

1. Plan Description

The Town of Pinebluff administers a public employee retirement system (the "Separation Allowance"), a single-employer defined benefit pension plan that provides retirement benefits to the Town's qualified sworn law enforcement officers under the age of 62 who have completed at least 30 years of creditable service or have attained 55 years of age and have completed five or more years of creditable service. The Separation Allowance is equal to .85 percent of the annual equivalent of the base rate of compensation most recently applicable to the officer for each year of creditable service. The retirement benefits are not subject to any increases in salary or retirement allowances that may be authorized by the General Assembly. Article 12D of G.S. Chapter 143 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly.

All full time law enforcement officers of the Town are covered by the Separation Allowance. At December 31, 2019 the Separation Allowance's membership consisted of:

Inactive	members	currently	receiving	-
benefits				
Active pla	an members			3
Total				3

2. Summary of Significant Accounting Policies:

Basis of Accounting. The Town has chosen to fund the Separation Allowance on a pay as you go basis. Pension expenditures are made from the General Fund, which is maintained on the modified accrual basis of accounting. Benefits are recognized when due and payable in accordance with the terms of the plan.

The Separation Allowance has no assets accumulated in a trust that meets the criteria which are outlined in GASB Statement 73.

B. Liabilities (Continued)

1. Pension Plan Obligations (Continued)

b. Law Enforcement Officers Special Separation Allowance (Continued)

3. Actuarial Assumptions

The entry age actuarial cost method was used in the December 31, 2019 valuation. The total pension liability in the December 31, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.50 percent

Salary Increases 3.25 to 7.75 percent, including inflation and

productivity factor

Discount Rate 1.93 percent

The discount rate is based on the yield of the S&P Municipal Bond 20 Year High Grade Rate Index as of December 31, 2019.

Mortality rates are based on the RP-2000 Mortality tables with adjustments for mortality improvements based on Scale AA.

4. Contributions

The Town is required by Article 12D of G.S. Chapter 143 to provide these retirement benefits and has chosen to fund the amounts necessary to cover the benefits earned on a pay as you go basis through appropriations made in the General Fund operating budget. There were no contributions made by employees. The Town's obligation to contribute to this plan is established and may be amended by the North Carolina General Assembly. Administration costs of the Separation Allowance are financed through investment earnings. The Town paid \$-0- as benefits came due for the reporting period.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2021, the Town reported a total pension liability of \$164,101. The total pension liability was measured as of December 31, 2020 based on a December 31, 2019 actuarial valuation. The total pension liability was then rolled forward to the measurement date of December 31, 2020 utilizing update procedures incorporating the actuarial assumptions. For the year ended June 30, 2021, the Town recognized pension expense of \$18,376.

	Deferred of Resc	_	Deferred Inflows of Resources		
Differences between expected and actual					
experience	\$	10,355	\$	-

1. Pension Plan Obligations (Continued)

c. Supplemental Retirement Income Plan for Law Enforcement Officers

Plan Description. The Town contributes to the Supplemental Retirement Income Plan (Plan), a defined contribution pension plan administered by the Department of State Treasurer and a Board of Trustees. The Plan provides retirement benefits to law enforcement officers employed by the Town. Article 5 of G.S. Chapter 135 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. The Supplemental Retirement Income Plan for Law Enforcement Officers is included in the Annual Comprehensive Financial Report for the State of North Carolina. The State's Annual Comprehensive Financial Report includes the pension trust fund financial statements for the Internal Revenue Code Section 401(k) plan that includes the Supplemental Retirement Income Plan for Law Enforcement Officers. That report may be obtained by writing to the Office of the State Controller, 1410 Mail Service Center, Raleigh, North Carolina 27699-1410, or by calling (919) 981-5454.

Funding Policy. Article 12E of G.S. Chapter 143 requires the Town to contribute each month an amount equal to five percent of each officer's salary, and all amounts contributed are vested immediately. Also, the law enforcement officers may make voluntary contributions to the plan. Contributions for the year ended June 30, 2021 were \$7,251 which consisted of \$7,251 from the Town and \$-0- from the law enforcement officers. No amounts were forfeited.

The Town has also elected for all employees not engaged in law enforcement to be covered under the Supplemental Retirement Income Plan. The Town contributes three percent of the employee's monthly compensation to the plan, and the employees may make voluntary contributions. Total contributions for the year ended June 30, 2021 were \$7,866, which consisted of \$4,802 from the Town and \$3,064 from the employees.

B. Liabilities (Continued)

2. Other Employment Benefit

The Town has elected to provide death benefits to employees through the Death Benefit Plan for members of the Local Governmental Employees' Retirement System (Death Benefit Plan), a multiple-employer, State-administered, cost-sharing plan funded on a one-year term cost basis. The beneficiaries of those employees who die in active service after one year of contributing membership in the System, or who die within 180 days after retirement or termination of service and have at least one year of contributing membership service in the System at the time of death are eligible for death benefits. Lump sum death benefit payments to beneficiaries are equal to the employee's 12 highest months' salary in a row during the 24 months prior to the employee's death, but the benefit may not exceed \$50,000 or be less than \$25,000. Because all death benefit payments are made from the Death Benefit Plan and not by the Town, the Town does not determine the number of eligible participants. The Town has no liability beyond the payment of monthly contributions. The contributions to the Death Benefit Plan cannot be separated between the post-employment benefit amount and the other benefit amount. Contributions are determined as a percentage of monthly payroll based upon rates established annually by the State. Separate rates are set for employees not engaged in law enforcement and for law enforcement officers. The Town considers these contributions to be immaterial.

3. Deferred Outflows and Inflows of Resources

The Town has several deferred outflows of resources. Deferred outflows of resources is comprised of the following:

Contributions to pension plan in current fiscal year \$	36,231
Benefit payments made and administrative	_
expenses for LEOSSA	-
Differences between expected and actual	31,700
experience	
Changes of assumptions	63,093
Net difference between projected and actual	23,785
Changes in proportion and differences between	
employer contributions and proportionate share of	8,705
contributions	
Charge on refunding	-
Total \$	163,514

B. Liabilities (Continued)

3. Deferred Outflows and Inflows of Resources (Continued)

Deferred inflows of resources at year-end is composed of the following:

	Statement of Net Position	General Fund Balance Sheet
Prepaid taxes (General Fund)	\$ -	\$ -
Taxes Receivable (General Fund)	-	4,514
Changes in assumptions	2,901	-
Difference between expected and actual experience	-	-
Changes in proportion and differences between employer contributions and proportionate share of contributions	5,604	-
Total	\$ 8,505	\$ 4,514

4. Risk Management

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Town has obtained commercial general liability, auto liability, public officials' liability, law enforcement liability coverage of \$1 million per occurrence, property coverage up to \$2,337,325, and workers' compensation coverage up to \$1,000,000.

The Town carries commercial coverage for all other risks of loss. Settled claims have not exceeded coverage in any of the past three fiscal years.

Because the Town is in an area of the State that has not been mapped and designated an "A" area by the Federal Emergency Management Agency, the Town has not purchased any flood insurance coverage.

In accordance with G.S. 159-29, the Town's employees that have access to \$100 or more at any given time of the Town's funds are performance bonded through a commercial surety bond. The finance officer and tax collector are each individually bonded for \$50,000 and \$10,000, respectfully. The remaining employees that have access to funds are bonded under a blanket bond for \$10,000.

5. Claims, Judgements and Contingent Liabilites

At June 30, 2021, the Town did not have any litigation pending.

B. Liabilities (Continued)

6. Long-Term Obligations

a. Installment Purchases

The Town entered into a \$1,200,000 installment contract with USDA for the financing of a police and public safety building. The financing contract requires payments beginning 2016 with an interest rate of 3.75%. Maturity is March 2055. The outstanding principal balance at June 30, 2021 was \$1,111,727.

The Town has entered into a \$555,000 installment contract to purchase a water pumper truck. The financing contract requires payments beginning March 2019 with an interest rate of 3.40%. Maturity is March 2028. The truck is security for the loan. The outstanding principal balance at June 30, 2021 was \$407,767.

The Town has entered into a \$33,650 installment contract to purchase a fire work vehicle. The financing contract requires payments beginning July 2018 with an interest rate of 2.75%. Maturity is July 2020. This loan was paid off during the current fiscal year.

The Town has entered into a \$151,500 installment contract to purchase a boom truck. The financing contract requires payments beginning January 2020 with an interest rate of 2.34%. Maturity is December 2023. The truck is security for the debt. The outstanding principal balance at June 30, 2021 was \$96,360.

III. SUMMARY DISCLOSURE OF SIGNIFICANT CONTINGENCIES

Federal and State Assisted Programs

The Town has received proceeds from several federal and State grants. Periodic audits of these grants are required and certain costs may be questioned as not being appropriate expenditures under the grant agreements. Such audits could result in the refund of grant moneys to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the refund of grant moneys.

IV. SUBSEQUENT EVENTS

Subsequent events have been evaluated through November 30, 2021, which is the date the financial statements were available to be issued.
