Verified Talkadot feedback from 139 attendees across 12 events.

96% Interactive | 96% Engaging | 95% Relevant | 94% Actionable

SPEAKING & SESSION TOPICS

Informed by RLD Group's applied research with 25 cross-functional senior leaders, decades of technology leadership, and work with organizations navigating real-world change.

■ AI LEADERSHIP ALIGNMENT: CREATE VALUE THROUGH ALIGNMENT

Recognize where fragmentation is limiting AI value and identify one practical move that strengthens speed, trust, and ownership.

◆ WHEN CHANGE MOVES FASTER THAN PEOPLE

Strengthen the conversations, decisions, and leadership practices that help people move through disruption with greater clarity and confidence.

○ LEADING THROUGH COMPLEXITY WITHOUT BURNOUT

Recognize burnout as a leadership and systems signal and build healthier ways to sustain performance under pressure.

FORMATS:
