- » *Renaissance School of Driving Behavior will train you to become a 100% alert driver, 100% of the time.*

Renaissance School of Driving Behavior

(A PUBLIC SERVICE COMPANY)

Bio:

This Joe arrived in the US (1972) as a premedical student, and attended the University of Colorado with the hope of becoming M.D. and going back to my birth country to help. But all hell broke loose, and the birth country went upside down. He then started working random jobs. My first marriage gifted me with my first daughter(Mietra), grand kids, and great grand kids in Colorado."

"Now in Dallas with my second marriage of nearly 40years to Shahla."

The odd ball jobs were followed by 32yrs of operating a small community grocery store(Andre Foods in Richardson Texas, 1982 - 2014)." My motivators who have kept me going forward 50 out of 73yrs, are my Dad(102yrs old), my wife Shala, Adonia, Antonio, Aspasia, Sabrina, Maya, Javid(PHD), Christina, Bob Malic(PHD), and Massih.

For the last 10years, in transport business as driver and operator with more than 800,000 miles experience (2014 - 2024) with no accidents. My best idea's came from observing bad drivers,road rages, and motor cycle bullies on the road, and drivers who think they own our roads.

"This new driving culture will reduce accidents and save lives."

A - if only we could save 10% on fatality that = 5,000 lives.

B - Save millions of productive hours wasted because of traffic accidents, = \$ Billions

C - Saving \$ Billions of resources wasted on road accidents
