\* Elected

<sup>1</sup> The results of the first preference vote totals are shown in the 1st round column. No candidate attained a majority. Following the procedures approved by Council, the candidate with the fewest first-preference votes is eliminated from further consideration; the second-preference votes of the eliminated candidate are redistributed to the remaining unelected candidates. The process is repeated until the number of elected candidates equals the number of positions available.

The total number of valid votes cast for President-Elect was 10,875.

The total voter turnout was 11.23% of all eligible voters.
