

# ETOPS

# EXTENDED RANGE TWIN OPERATIONS

## Overview

## ETOPS COURSE

# What is it?

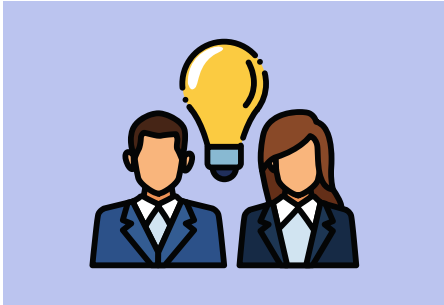

A 2 day workshop covering ETOPS regulations.

The syllabus includes:

- Explain the ETOPS regulations and the need for them and
- Describe the Operations Approval process for an AOC.
- Identify potential aircraft performance impacts when flying ETOPS
- Understand the diversion procedures and need for ETOPS ERAs and how to identify your area of operations
- Understand the fuel requirements for ETOPS and non-ETOPS flights
- An explanation of the dispatch considerations and how to correctly evaluate ETOPS ERAs
- Understand what is required on an ETOPS release form, and
- Identify what documentation is required for auditing purposes.
- All training will be provided with Operational examples and scenarios. An exam can be included on the last day.
- All students will have access to a copy of the training material.

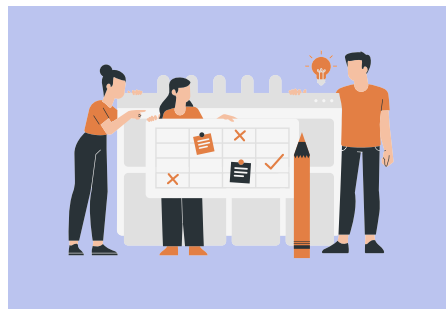

# WHO IS IT FOR?

**Management**

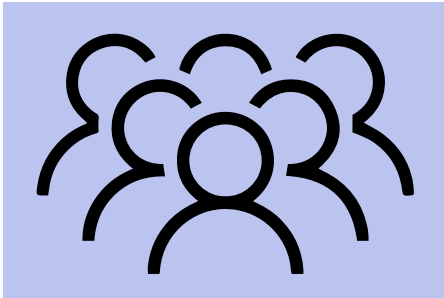

**Operations Team**

**Pre-Ops Planning**

# DELIVERY OPTIONS

## Open Cohorts

Open cohort courses are held regularly at an easily accessible, central training facility.

For information on dates and prices visit:  
[www.CrosbyAviation.co.uk](http://www.CrosbyAviation.co.uk)

## Closed Cohorts

Closed cohort courses can be held at our training facility or on location at your organisation. Closed cohort courses will also benefit from our bespoke consultancy.
