I, hereby authorize the veterinarian to examine diagnosis, prescribe for, or treat the above- described pet. I understand the regular exam fee for a dog/ cat is \$45, exotic is \$60, and farm animal/primate is \$95. I assume responsibility for all charges incurred in the care of this animal. I understand that these charges must be paid in full when services are rendered. It is necessary for all surgical patients, some treatment patients, and very aggressive patients to receive a sedative for proper care. All Species Animal Hospital does have permission to give my pet a sedative or anesthetic if necessary.

As with any sedative or anesthesia, there are risks involved or even death. It is recommended, for your pet's safety, that all patients have blood values evaluated prior to any sedative or anesthesia. All Species Animal Hospital does have my permission to run my pet's bloodwork.

We will gladly prepare a written estimate if you desire so (please ask our doctor or receptionist). This will be important to you since **ALL PROFESSIONAL FEES ARE DUE AT THE TIME SERVICES ARE RENDERED.**

This Animal Hospital promotes a flea/ tick free environment. All admitted animals must be free from fleas and ticks. Upon admission and examination of your pet, if fleas and/ or ticks are observed, we reserved the right to apply flea/ tick prevention (Capstar) at the owner's expense.

If your pet is dropped off for an annual examination and/ or vaccinations, it will have to be picked up before 5pm or a daycare charge of at least \$35 will be added to your bill, unless your dog is also getting groomed that day.
