

HOMESCHOOL ENRICHMENT

FOREST SCHOOL WITH A FOCUS
2025-2026 School Year

MONDAYS

MATH

GROUP SIZE - 12

Discover how numbers come alive in the forest! Each Monday, students explore math concepts like measurement, patterns, geometry, and problem-solving through hands-on activities in nature. From tracking animal movements to building shelters, math skills are woven into real-world adventures that make learning meaningful and fun.

WEDNESDAYS

LANGUAGE & LITERACY

GROUP SIZE - 12

Storytelling, reading, writing, and communication come to life every Wednesday in the woods. Students build language skills through nature journaling, group storytelling, poetry walks, and letter-writing projects inspired by their forest surroundings. We nurture a love for words and creativity while strengthening essential literacy foundations.

THURSDAYS

S.T.E.M.

GROUP SIZE - 12

Science, technology, engineering, and math (S.T.E.M.) meet the wild outdoors every Thursday! Students investigate ecosystems, conduct experiments, build structures, and engage in creative engineering challenges using natural materials. Inquiry, curiosity, and critical thinking guide the day as students experience the wonders of S.T.E.M. firsthand.
