

# PAINTSAVER LID™

## THE PRODUCT

Paintsaver Lid™ protects your paint while it's being used under your pump and while using a roller and grid setup. A temporary bucket cover anytime you need it. Its unique design allows you to securely fasten the lid to any five-gallon bucket during use.

Paintsaver Lid™ protects your paint while it's being used under your pump.

Paintsaver Lid™ also performs as a temporary cover for your roller setup.

Defends against UV Rays and unwanted debris that could compromise the quality of your paint.

Installs and removes easily when refilling the bucket.

# HOW TO:

**Paintsaver Lid™ has custom perforated tear away knockouts for either pump or roller setups. Paintsaver Lid™ secures the five-gallon bucket handle upright when under the pump. This will help you move the pump easily and securely.**

**COVER AND PROTECT LIKE A PRO**
