

Do you Want to Promote your Infant's Well-Being and Development?

We are looking for English-speaking mothers who are 18 years old or older with infant(s) 0-12 months old to participate in a voluntary, 9-week Children's Hospital Los Angeles research study. Our goal is to study the effects of the Incredible Years Parents and Babies Program on parenting confidence, infant well-being, and infant development.

Eligible mothers will participate in nine (9) 1.5-hour online sessions. You will be asked to answer questions about you and your baby at the beginning and end of the study. We will also ask you to take part in a group interview (focus group) with other mothers in the study. The group interview will be audio-recorded. You may learn positive parenting skills that can ultimately promote your infant's development and as well as your own health and well-being.

You will receive monetary payment for your participation (up to \$30).

If you are interested, contact:

Dr. Joyce Javier at incrediblefamilies@chla.usc.edu or (323) 691-0529.

You may leave a message and a researcher will return your call.
