

# CO-Z Dog Grooming Bath Tub Professional Pet Wash Station

---

## SAFETY

- Ensure tub is **level and stable**
  - **Secure pet** with leash straps
  - **Do not leave pets unattended**
  - Check water temperature before use
  - Keep area dry to prevent slipping
- 

## BATHING A PET

1. Lead or lift pet into tub using sliding door
  2. Secure gently with leash straps
  3. Raise the bath to optimum height using the foot controls for the electric lift
  4. Wet coat using showerhead
  5. Apply pet-safe shampoo
  6. Rinse thoroughly
  7. Allow water to drain fully
  8. Remove pet and dry
- 

## USING THE SHOWER

- Use warm water (not hot)
  - Adjust spray pattern if available
  - Avoid spraying directly into eyes or ears
- 

## CLEANING & CARE

- Remove hair from **drain strainer after each use**
  - Rinse tub and wipe dry
  - Clean stainless steel with mild detergent only
  - Keep grate and ramp clean for grip
- 

## COMMON ISSUES

- Poor drainage → clean hair trap. Lift out the perforated floor panel/grate to access the hair trap
- Leaks → check hose connections
- Pet slipping → ensure grate is fitted
