

Jamaul Perdue

Founder Maul Academy Basketball

I am an established basketball coach and trainer in the Chicagoland area with 3 years of experience under my belt. During this time, I have collaborated with several youth basketball programs across the city mastering my skills in team leadership and student athlete training. My methodology focuses on teamwork, sportsmanship, and skill development.

My passion for teaching and mentoring children on and off the court inspired me to build my own successful basketball training program, Maul Academy. As Maul Academy continues to expand, I am confident my practice will elevate partnership programs for young student athletes. My goals are to establish an organization that supports underprivileged communities and youth through positivity, sports and mentorship and develop successful businesses.
