## JET FUEL ~ Sativa

Jet Fuel, also known as G6, from 303 Seeds is the ultimate cross of some of the most renowned Diesel strains. By combining Aspen OG with High Country Diesel, we are left with a sativa-driven hybrid that stays true to the influence of SFV OG Kush and East Coast Sour Diesel in its lineage. The name Jet Fuel isn't purely devoted to the sweet, pungent aroma of diesel fumes that this strain exudes, but also the high-energy jolt of uplifting sativa effects that eventually level off to provide a dream-like state of relaxation.

Master Yoda clinched 1st Place at High Times Los Angeles Cannabis Cup in 2012, where the OG Kush and Master Kush cross was already a local favorite.
