Stainless - Steel, Tubular
Primary Heat Exchanger

High- Efficiency
Performance

CHOOSE A COMFORTEC BRAND GAS FURNACE AND YOU WON'T GET COLD FEET.

When the time comes to replace your old, worn-out furnace; you should choose to go with a name you know, like the Comfortec brand, one of Canada's most trusted and enduring consumer brands. Yet, peace of mind isn't all that you'll enjoy with an Comfortec brand **C-AM9C96** two-stage, multi-speed furnace.

COMPONENT UPGRADE OFFERS BETTER PERFORMANCE IN EXCHANGE

The new stainless-steel, tubular primary heat exchanger now featured in Comfortec brand gas furnaces is a worthy replacement for our esteemed MillionAir® heat exchanger. Perhaps the most essential component in a gas furnace's performance, this re-engineered heat exchanger employs wrinkle bend technology to deliver extraordinary durability and long-term reliability.

GET STRAIGHT A'S IN COST EFFECTIVENESS

When you receive an AFUE rating of 90% or more, your gas furnace is performing at the top of its class. Simply put, the Comfortec brand **C-AM9C96**'s 96% AFUE rating means 96¢ of every dollar you spend on energy is actually used to heat your home. That's very little wasted energy when compared with lowerrated or older, increasingly inefficient heating systems.

THE SECURITY OF THE COMFORTEC BRAND'S AMAZING WARRANTIES

To truly seal the deal, Comfortec brand gas furnaces are backed by industry leading limited warranties.* The majority of our gas furnaces are backed by a Lifetime Unit Replacement Limited Warranty*, while all Comfortec brand products feature a 12-Year Parts Limited Warranty*. Together these warranties combine to offer you a level of purchase protection that's the stuff of legend.

ENGINEERED LONGEVITY

A gas furnace is a piece of equipment from which you expect years of uninterrupted service. Comfortec brand gas furnaces live up to expectations through intelligently designed components that benefit from decades of performance testing and refinement, like our new stainless-steel heat exchangers. And with outstanding warranties* that demonstrate our confidence, you can purchase an Comfortec brand furnace safe in the knowledge that it Lasts and Lasts and Lasts®.

QUIET COMFORT

Many homeowners think the best gas furnaces are not seen or heard. That's why a Comfortec brand **C-AM9C96** multi-speed furnace is insulated for noise reduction. With a sound-isolated blower assembly and a heavy-gauge steel cabinet, it operates at unobtrusive noise levels well below those of furnaces not equipped with these noise-reduction measures.

ENERGY EFFICIENCY

Energy efficiency equates to cost savings. A gas furnace's efficiency rating can primarily be determined by two factors: its AFUE rating (Annual Fuel Utilization Efficiency), which indicates what percentage of each dollar of natural gas purchased is actually used to heat your home; and the type of blower used in the furnace.

This Comfortec brand two-stage, multi-speed furnace offers 96% AFUE, as opposed to lower ratings of less efficient gas furnaces. Its multispeed blower can improve its efficiency rating and enable the furnace to maintain consistent warmth in low-heat capacity mode without inefficient highheat surges associated with single-speed gas furnaces.

LIMITED WARRANTY PROTECTION

Complete warranty details available from your local dealer or at www.amana-hac.com. To receive the Lifetime Unit Replacement Limited Warranty and the 12 - Year parts Limited Warranty online registration must be completed within 60 days of installation.

CLEAN COMFORT®

INDOOR AIR ESSENTIALS

filtration

humidity control

dehumidification

purification

ventilation

Indoor comfort in your home is about more than just adjusting the temperature on the thermostat. Many homeowners overlook the need for necessary components and systems that can improve the indoor air you breathe.

CLEANCOMFORT.COM

HVAC Communicating Control - ComfortBridge technology offers off-the-wall smart communicating systems capable of customizing energy-efficient performance, use of any single-stage thermostat, and more.

COMFORTBRIDGE.COM

C-AM9C96 ADVANTAGES:

96% AFUE //

Converts 96¢ of every energy dollar into indoor comfort.

Durable 110-Volt Silicon Nitride Igniter //

Eliminates the need for an energy-wasting pilot light.

Heavy-Duty Stainless Heat Exchanger //

Unique tubular stainless-steel construction formed using wrinkle bend technology results in an extremely durable heat exchanger. Paired with a stainless-steel secondary heat exchanger, this combination provides reliability, durability and efficiency.

Two-Stage Gas Valve //

Reduces energy needed during moderate demand to deliver outstanding comfort and efficiency as compared to single stage gas valves.

Multi-Speed ECM motor //

Automatically adjusts airflow to match comfort needs, reduces energy consumption and system noise as compared to single-stage motors.

Color-Coded Low-Voltage Terminals //

The coded low-voltage terminals provide provisions for electronic air cleaner and humidifier.

Quiet, Two-Speed, Induced-Draft Blower //

Provides precise control and enhanced energy-efficient performance as compared to a natural draft furnace.

Self-Diagnostic Control Board //

Continuously monitors the system for consistent, reliable operation, stores last diagnostic codes in memory; and indicates condition through a flashing LED for quick troubleshooting.

Heavy-Gauge Steel Cabinet //

The durable baked-enamel finish resists corrosion and protects essential components.

Thermally Insulated Cabinet //

The fully-insulated cabinet means air leakage of less than 2% to maximize heat transfer efficiency and lower blower noise.
