CHOOSE A COMFORTEC BRAND GAS FURNACE AND YOU WON'T GET COLD FEET.

When the time comes to replace your old, worn-out furnace; you should choose to go with a name you know, like the Comfortec brand, one of Canada's most trusted and enduring consumer brands. Yet, peace of mind isn't all that you'll enjoy with an Comfortec brand **C- GMS96** single stage, multi-speed ECM.

COMFORTEC IS A BRAND YOU CAN REALLY WARM UP TO

The best gas furnace is the kind you don't have to think or worry about. It comes on the moment you need it and then runs quietly and efficiently all winter long as needed. The Comfortec **C-GM9S96** is loaded with features designed to provide outstanding performance for years to come. We use advanced techniques and materials so you know the cozy, even heat you feel in every corner of your home is an energy-efficient warming trend that's designed to stay for many years.

DON'T HIGH UTILITY BILLS MAKE YOU HOT UNDER THE COLLAR?

High heating bills burn us up, too. Our **C-GM9S96** gas furnace is priced to help add comfort to your budget from a local independent dealer. And that's only the beginning. We want you to smile every time you open your utility bill, so we design into our units proven energy efficient technology.

THE SECURITY OF THE COMFORTEC BRAND'S AMAZING WARRANTIES

To truly seal the deal, Comfortec brand gas furnaces are backed by industry leading limited warranties.* The majority of our gas furnaces are backed by a Lifetime Heat Exchanger Limited Warranty*, while all Comfortec brand products feature a 10-Year Parts and Unit Replacement Limited Warranty*. Together these warranties combine to offer you a level of purchase protection that's the stuff of legend.

ENERGY EFFICIENCY

Energy efficiency equates to cost savings. A gas furnace's efficiency rating can primarily be determined by two factors: its AFUE rating (Annual Fuel Utilization Efficiency), which indicates what percentage of each dollar of natural gas purchased is actually used to heat your home; and the type of blower used in the furnace.

The 96% AFUE rating on this Comfortec **C-GM9S96** furnace means that 96 cents of every energy dollar warms your home. The Department of Energy (DOE) established the AFUE (Annual Fuel Utilization Efficiency) system to calculate the annual operating cost of residential gas furnaces.

EXPERIENCE RELIABLE INDOOR COMFORT

Comfortec is one of the biggest names in home heating and energy-efficient home comfort. That's because Comfortec lives up to its name in a big way, with time-tested energy-efficient technology, highly-durable materials and spot-on manufacturing. So, no matter where you live or whether your home is small or large, Comfortec probably has a furnace to help keep your home warm and comfortable.

C-GM9S96 ADVANTAGES:

Aluminized Steel Tubular Primary Heat Exchanger //

Distinctive tubular aluminized steel construction formed using wrinkle-bend technology results in an extremely durable heat exchanger. Paired with a stainless-steel secondary heat exchanger, this combination provides reliability, durability and efficiency.

Efficient and Quiet Multi-Speed ECM Circulator Motor //

Provides quiet system startup and shutdown with highly-efficient performance.

Thermally -Insulated Cabinet //

The fully insulated cabinet means air leakage of less than 2% to maximize the heat transfer efficiency and lower blower noise.

Self-Diagnostic Control Board //

Continuously monitors the system for consistent, reliable operation, stores last diagnostic codes in memory and indicates condition through LED for quick troubleshooting.

Quiet, Single-Speed, Induced-Draft Blower //

Provides precise control and enhanced energy-efficient performance as compared to a natural draft furnace.

Durable Silicon Nitride Igniter //

Eliminates the need for an energy-wasting pilot light.

Thermally -Insulated Cabinet //

The fully insulated cabinet means air leakage of less than 2% to maximize the heat transfer efficiency and lower blower noise.

Component Upgrade Offers Better Performance //

The aluminized steel, tubular primary heat exchanger featured in the Comfortec brand gas furnaces is likely the most essential component in a gas furnace's performance. This distinctive heat exchanger employs wrinkle-bend technology which was developed to deliver extraordinary durability and long-term reliability.
