HOW THE COMFORTEC BRAND MAKES YOUR DECISION EASIER

The Comfortec brand is synonymous with long-lasting, premium quality products — from home appliances to heating and air conditioning equipment. The purchase of an indoor comfort system is not one to be taken lightly. However, it's one you can make with an air of confidence when you consider all that distinguishes the venerable Comfortec brand.

COPELAND® CORESENSE DIAGNOSTICS

Constantly monitoring the performance of your Comfortec brand air conditioner, this advanced diagnostics system provides insight for accurate troubleshooting and quick diagnosis and repairs. Using the compressor as a sensor, CoreSense Diagnostics delivers active protection and will proactively shut the system down should it detect conditions that could damage to compressor. As a result, catastrophic failures and extensive, costly repairs are often avoided.

QUIET PERFORMANCE

You can be assured that your Comfortec brand air conditioner will provide you with quiet operation. To minimize operating sounds, we've acoustically engineered our systems with enhancements such as a specially designed sound-control top.

ENERGY EFFICIENCY

Energy efficiency equates to cost savings. Your Comfortec brand **C-ASXH4** Air Conditioner offers up to 14.3 SEER2 energy-efficiency performance. "SEER2" stands for Seasonal Energy Efficiency Ratio, a measure used by the U.S. Department of Energy to rate the cooling efficiency of air conditioners and heat pumps. The higher the SEER, the greater the efficiency—and the lower the operating cost. Compared to lower SEER units found in many homes, a Comfortec brand **C-ASXH4** Air Conditioner can provide significant savings on your electric bill.

COMFORTING CRAFTSMANSHIP

Innovative engineering, world-class manufacturing processes and the relentless drive to ensure each unit lives up to our uncompromising standards — these attributes define the Comfortec brand and result in the premium performance homeowners have come to expect from a Canadian legend.

CONFIDENCE-INSPIRING COMPRESSOR

With Comfortec air conditioners, your comfort and savings start with a high-efficiency compressor designed to provide years of reliable cooling comfort. The compressor is complemented by our durable, high-efficiency condensing coil, which is made with corrugated aluminum fins and refrigeration-grade copper tubing

LIMITED WARRANTY PROTECTION

To truly seal the deal, a Comfortec brand **C-ASXH4** Air Conditioner is backed by an industry-leading limited warranty*. In fact, all Comfortec brand air conditioners feature a 10-Year Parts and Labour Limited Warranty*. The longevity of premium Comfortec brand products combined with this excellent warranty* coverage offers you a level of purchase protection that's the stuff of legend.

C-ASXH4 ADVANTAGES:

High-Efficiency Compressor //

Designed to provide years of reliable cooling comfort, it provides up to 14.3 SEER2 cooling performance for lower energy bills compared to lower SEER2 compressors.

Single-Speed Condenser Fan Motor //

With advanced fan design, it provides dependable, quiet airflow across the condensing coil.

Copeland® ComfortAlert™ Diagnostics //

Advanced diagnostics constantly monitor your air conditionersystem, reducing failures and pinpointing trouble spots for a fast fix.

Efficient Cooling Capacity //

Five millimeter, refrigeration-grade premium copper tubing and aluminum fin condenser coil configuration deliver outstanding heat transfer properties with R-410A refrigerant.

Factory-Installed Inline Filter Drier //

Protects the refrigerant system from dirt and moisture for longer service life compared to a unit without a filter drier.

Quiet Operation //

Acoustically engineered, high density sound control blanket helps to reduce noise levels compared to units without sound blankets for years of quiet comfort.

Heavy-Gauge Galvanized Steel Enclosure with SoundControl Top //

With advanced fan design, it provides dependable, quiet airflow across the condensing coil.
