EXPERIENCE RELIABLE INDOOR COMFORT FOR EVERYONE IN YOUR HOME YEAR AFTER YEAR AFTER YEAR.

Comfortec lives up to its name in a big way, with time-tested energy-efficient technology, highly durable materials and spot-on manufacturing. So, no matter where you live or whether your home is small or large, Comfortec has a solution to help keep your home feeling comfortable.

COMFORTEC WILL KEEP YOU COOL AS A CUCUMBER.

The best air conditioner is the kind you don't have to think or worry about. It comes on the moment you need it and then runs quietly and efficiently all year long as needed. The Comfortec C-GSX13 is loaded with features designed to provide outstanding performance for years to come. We use advanced techniques and materials so you know the cozy, even temperature you feel in every corner of your home is an energy-efficient trend that's designed to stay for many years.

AS A CUCUMBER. DON'T LET HIGH UTILITY BILLS MAKE YOU LOSE YOUR COOL.

Our complete line of air conditioners are priced to help add comfort to your budget. And that's only the beginning. We want you to smile every time you open your utility bill, so we design energy efficient technology into our units.

TAKING PRIDE IN OUR COMPANY HERITAGE.

Comfortec brand heating and cooling systems are designed to provide refreshingly affordable and energyefficient indoor comfort solutions using advanced technology.

COMFORTING CRAFTSMANSHIP

Innovative engineering, world-class manufacturing processes and the relentless drive to ensure each unit lives up to our uncompromising standards — these attributes define the Comfortec brand and result in the premium performance homeowners have come to expect from a Canadian legend.

CONFIDENCE-INSPIRING COMPRESSOR

With Comfortec air conditioners, your comfort and savings start with a high-efficiency compressor designed to provide years of reliable cooling comfort. The compressor is complemented by our durable, high-efficiency condensing coil, which is made with corrugated aluminum fins and refrigeration-grade copper tubing.

SMARTCOIL™ TECHNOLOGY SMALLER IS SMARTER

Long ago the HVAC industry determined that the combination of copper tubing and aluminum fins provided the most efficient transfer of thermal heat available. Today, the Comfortec brand has improved upon this industry standard by making the condenser coil copper tubing smaller and smarter. The result is a heat pump unit that can offer high efficiency, use less refrigerant, and deliver money-saving and energy saving comfort to you for years.

LIMITED WARRANTY PROTECTION

To truly seal the deal, a Comfortec brand C-GSX13 Air Conditioner is backed by an industry-leading limited warranty*. In fact, all Comfortec brand air conditioners feature a 10-Year Parts and Labour Limited Warranty*. The longevity of premium Comfortec brand products combined with this excellent warranty* coverage offers you a level of purchase protection that's the stuff of legend.

HVAC Communicating Control - ComfortBridge technology offers off-the-wall smart communicating systems capable of customizing energy-efficient performance, use of any single-stage thermostat, and more.

COMFORTBRIDGE.COM

Indoor comfort in your home is about more than just adjusting the temperature on the thermostat. Many homeowners overlook the need for necessary components and systems that can improve the indoor air you breathe.

CLEANCOMFORT.COM

C-GSX13 ADVANTAGES:

Energy-Efficient Compressor //

Designed to provide years of reliable cooling comfort, it provides up to 14 SEER cooling performance for lower energy bills compared to lower SEER compressors.

Single-Speed Condenser Fan Motor //

With advanced fan design, it provides dependable, quiet airflow across the condensing coil.

Efficient Cooling Capacity //

Five millimeter, refrigeration-grade premium copper tubing and aluminum fin condenser coil configuration deliver outstanding heat transfer properties with R-410A, chlorine-free, refrigerant.

Heavy-Gauge, Galvanized Steel Enclosure Cabinet //

A louvered cabinet protects the coil, while its appliance-quality, post-paint, baked enamel finish protects your system from outdoor elements.

Factory-installed In-Line Filter Drier //

Protects the refrigerant system from dirt and moisture for longer service life compared to units without filter driers.

Up To 14 STEERS //

"SEER" stands for Seasonal Energy-Efficiency Ratio, which is a measurement of a air conditioner's cooling efficiency developed by the U.S. Department of Energy. It's a simple formula: the higher the SEER of your unit, the greater its efficiency – and the lower your operating costs.
