Read assembly instructions with care. When selecting a campsite, make sure you find a flat area with good drainage free from all sharp objects. Protect your investment.

STEP 3: Lay the two pole assemblies across the tent to form an "X" across the tent. (If your tent comes with sleeves, run the assembled pole sections through the sleeves before attempting to erect the tent).

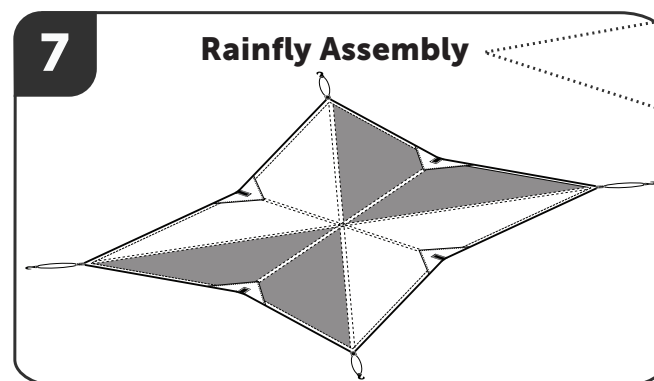

STEP 4: Insert the pin and ring attached on the corner of the tent into the open metal ferrule at the end of the pole assembly, **Repeat for all four corners.** In repeating the procedure, you have now formed two arches.

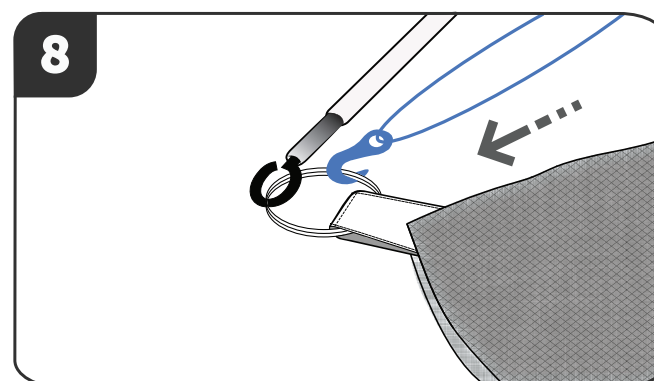

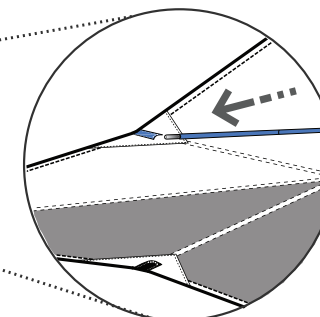

STEP 5: Fasten the tent clips to the pole assembly for further security.

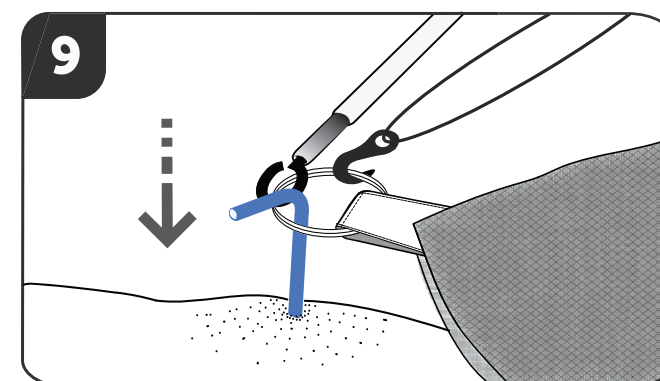

STEP 6: Tie the two arched pole assemblies together with the ties at the top of the tent.

STEP 7: Spread out the rainfly over the top of the tent to prevent debris from entering the tent.

STEP 8: Each corner of the rainfly has a bungee cord with plastic "S" hooks - Attach each "S" hook to tent's pin and ring.

STEP 9: Securely insert tent stake into the ground through the small pin and ring on each corner of the tent and middle of bottom.
