

Serving Communities • Strengthening Families

3/25/2025

Greetings!

ResilientKidz exists to help parents raise healthy, caring, and responsible children. Our multilingual, evidence- and research-based parenting program, *Raising Highly Capable Kids*, brings communities together to support parents in the joyful but difficult task of raising their children. Our program concentrates on the overall character development of both child and parent.

Involved and caring fathers are extremely important to families. As such it is our honor to recognize the efforts of The National Alliance for Father Friendly Schools in working to encourage schools and school districts in providing a welcoming environment for fathers. We recognize that when schools intentionally welcome and engage fathers, they see improvements in behavior, attendance and student achievement. We support that wholeheartedly!

We are also proud to encourage the support of students who do not have an easily identifiable father figure in their lives. We encourage families and schools to help those students participate in father engagement programs with an appropriate role model or mentor to fill that gap.

As such, we are proud to join The National Alliance for Father Friendly Schools in working with other fatherhood organizations, school districts, parent organizations and others. As Alliance members, we believe in the power of family engagement in schools especially those that are specifically welcoming of fathers.

Please feel free to contact me for a reference or if you have any questions.

Thank you,

Curt Sawyer
