40,000 STEPS	<a href="https://www.40000steps.com/">https://www.40000steps.com/</a>	On March 22, 2019, I cracked up, walked out of the newspaper office and decided I'd drink myself to death. It was the culmination of years of numbing my depression and anxiety with alcohol. But as I approached the point of no return, I was struck by a thought: I deserve to live. I deserve help. I am worth it. I checked into rehab for alcohol addiction the following Monday, setting off the greatest journey of my life. On April 6, 2019, the day after I checked out of rehab, I ran a marathon. That afternoon, I began writing a memoir titled "40,000 Steps". In November 2020, I launched the podcast "40,000 Steps Radio". It stars guests from a wide range of backgrounds, including pro athletes, experts on the topics of addiction and mental illness, musicians, veterans, and more - even a former Ukrainian ballet phenom. The podcast is a safe community where we gather to laugh, cry, learn, grieve, celebrate, and take a sledgehammer to stigma.		L3C

ACT PREP CHICAGO	<a href="https://www.act-prepchicago.com/">https://www.act-prepchicago.com/</a>	A couple of educators, who were performing one-on-one tutoring to help students in their school subject areas, found that many of their clients lacked fundamental strategies and skills required for success on the ACT. Many of these students had no ACT prep at all or had insufficient training from teachers with no training in ACT preparation. Deciding that there must be many more ill equipped students and knowing that many of these students would not seek one-on-one tutoring, we extended our invaluable private instruction to small group and classroom size instruction. In doing so, we offer our services to more students and provide more hours per week of ACT prep than would be available in a one-on-one setting. Our goal is to see as many high school students as possible perform so well on the ACT that they not only obtain college admissions to the college of their choice, but also scholarships. Entrepreneur the Arts	<a href="https://entrepreneurthearts.com/">https://entrepreneurthearts.com/</a>	Hello, my name is Lisa Canning. I created this blog to help entrepreneurs and small business owners take their creativity someplace they want it to go. I started this blog over 10 years ago to deliver well-written helpful content. Our goal was then, and continues to be now, to build a community devoted to the success of small business owners and entrepreneurs. As an entrepreneur from the creative sector, and someone who has been building businesses and helping others to do the same for over 40 years, you can trust the quality of our content because its written by business owners who care about sharing what they know. Our editor vets each writer who ask to publish on our site, checks content for originality, as well as carefully curates what we post.	Naperville, IL	C Corp

FIG CAFE COFFEE AND CUSTARD	<a href="http://brewercoffeecustard.com/">http://brewercoffeecustard.com/</a>	Our story starts in the heart of Chicago's Auburn Gresham neighborhood in a loving mother's kitchen where the anticipation of homemade custard-filled her family with joy. Her son, Elijah, would later recall these memories (and recipes) when opening Brewer Coffee and Custard. Now, we're proud to share many custards with those who walk through our doors. We also serve coffee, breakfast and lunch sandwiches, and a variety of other sweet and savory menu items. As an African American-owned and -operated business, there's nothing we love more than contributing to the rich history of our community. We look forward to making new memories with you, one scoop at a time.	Chicago, IL	L3C

FOTOWARRIOR	<a href="https://fotowarrior.com/">https://fotowarrior.com/</a>	The idea for fotowarrior was born while founder Robert B. was driving on the Dan Ryan Expressway in Chicago. He witnessed people throwing trash out of car windows. Robert has been a businessman and friend to many individuals on the north side, Auburn Gresham and Roseland communities, for many years. He has been the minority, in a majority African American Community, he has witnessed a lot of unconventional acts in these neighborhoods, and has been profiled and searched for "just being in a retail parking lot." Robert spent the next few years running scenarios through his head on ways to alleviate joblessness among middle aged men, bankrupt governments with pension problems, police perception issues, and the careless, reckless driving that occurs throughout the Chicagoland region. Fotowarrior helps to solve these problems by offering a platform that welcomes citizen reporting of motor vehicle safety violations. It allows the ordinary citizen to stay anonymous, without fear of retribution. It allows the ordinary citizen the ability to earn a honest income, by being engaged in neighborhoods all across this great country of ours. It allows our police departments to concentrate on more serious crime. It allows governments a more efficient revenue source, which is funded by drivers who purposely disobey the rules of the road, while rewarding the citizen reporter.		L3C

FREEDOM HOUSE STUDIOS.	freedomhouse.org	Freedom House is an independent watchdog organization that supports the expansion of freedom around the world. Freedom House supports democratic change, monitors freedom, and advocates for democracy and human rights. Since its founding in 1941 by prominent Americans concerned with the mounting threats to peace and democracy, Freedom House has been a vigorous proponent of democratic values and a steadfast opponent of dictatorships of the far left and the far right. Eleanor Roosevelt and Wendell Willkie served as Freedom House's first honorary co-chairpersons. Throughout its history, Freedom House has opposed tyranny around the world, including dictatorships in Latin America, apartheid in South Africa, Soviet domination of Central and Eastern Europe, and religiously-based totalitarian regimes such as those governing Sudan, Iran and Saudi Arabia. Freedom House has promoted the growth of freedom by encouraging U.S. policymakers, international institutions, and the governments of established democracies to adopt policies that advance human rights and democracy around the world. At the same time, Freedom House provides support to individuals working in the world's young democracies to overcome debilitating legacies of tyranny, dictatorship and political repression; as well as to activists working in repressive societies to bring about greater freedom and openness. HUSTLE ELITE ATHLETICS	hustlebasketballleague	The Hustle Basketball League is unique to other youth basketball leagues, especially in the most important category for "ANY" youth sports league, by actually teaching and developing each players knowledge and physical skills for the game of basketball. This is where our G League comes in to play. Each player is an equal part of the team they are placed on. Put on the end of the bench and forgotten about because their skills are not as good as the rest of their teammates is not an option. They will be coached and played in practice and games. If you a player is advanced compared to their peers they will get a chance to play in an age division above their current one if they so choose. Our AAU team the Cobras is another level for them to play at. It is a higher level of play and competition to reach for. We offer basketball skills training and strength & conditioning for individuals, groups, and teams as well. The strength & conditioning is for all athletes and teams of all sports in addition to basketball. Our goal is to make better players, athletes, and teach them to have fun while they work to achieve their goals and dreams. We are not just another basketball league because our success is based on helping young athletes become what they want and not just another kid to fill up teams.	Hillside , IL	L3C

JOURNIMAP	journimap.com	Patient Experience and Customer Experience work is all about creating value for the people you're working to serve. Market leaders in for-profit sectors are investing billions in CX to grow revenues, increase margins, reduce costs and drive loyalty. High stakes battles are won and lost by delivering better experiences, delighting users and establishing loyalty. However, the benefits achieved through effective customer experience programs typically come from spending millions of dollars. Smaller companies and other organizations can also benefit greatly from gaining a better understanding of their customers, clients, beneficiaries, members, patients and other stakeholders. And CX practices offer great insights to help drive mission attainment in social impact work. Nonprofits and mission-driven companies can make a bigger difference in people's lives by gaining empathy for the people they serve. Because the more you know about someone's journey the more likely it is that you'll be able to help. Unfortunately, CX programs tend to be expensive...really expensive. Successful CX initiatives typically require experienced staff, significant research dollars, multiple consultants and complex integration of budget-busting technology.		L3C

MAJORDOMO	<a href="http://majordomo.com/">http://majordomo.com/</a>	We believe home owners should be empowered to be responsible chief stewards – majordomos – of their home, their greatest investment. And we believe we can help. We also believe owning land and a home is an incredible opportunity, and a big responsibility. We're focused on starting your relationship with your home on a firm foundation. This starts during the purchase process when you have a short amount of time to look into the condition of a home and determine if you're satisfied with what you're buying, if repairs need to be made, or if the price needs to be changed. Traditionally, this is challenging because during that short amount of time you need to understand all the information in an inspection report, decide what to do about the information, coordinate with contractors to provide quotes for repairs and much more. It can be overwhelming!	Los Angeles, CA	L3C

Meliora Cleaning Products	<a href="https://meliorameansbetter.com/">https://meliorameansbetter.com/</a>	It all started when Kate, while studying for a Masters degree in Environmental Engineering, struggled to find out and understand what ingredients were in everyday household cleaning products such as laundry detergent. She wanted to make sure the ingredients were safe for those in her household and the environment, but the ingredients weren't even listed! It became clear that it was hard to be a responsible consumer and to do no harm. OTIUM	<a href="https://otiumla.com/">https://otiumla.com/</a>	Otium is a contemporary restaurant that draws from the rich culinary heritage and experiences of Timothy Hollingsworth. It is designed to be a social restaurant with an open kitchen merging indoor and outdoor spaces. The restaurant’s name, Otium, has its roots in Latin, a word that is meant to emphasize a place where time can be spent on leisurely social activities. Adjacent to one of Los Angeles’ most important cultural corridors-- Grand Avenue -- and next to its newest, most vibrant addition, the con-temporary art museum, The Broad, Otium strips away the formalities of dining while focusing on the quality of food, warm service, and relaxed casual ambiance, paralleling the true essence of its name. The restaurant draws inspiration from the 100-year-old olive trees planted in The Broad’s adjacent plaza by utilizing rustic cooking with wood fire and sustainable ingredients grown in the garden of the restaurant’s mezzanine. Chef Timothy Hollingsworth’s 13 year history in Napa Valley, blended with his present roots as an Angeleno living in downtown Los Angeles, sets the stage for an environment of highly eclectic, vibrant, and seasonal flavors. To complement the approachable elegance of Hollingsworth’s cuisine, the interior design of Otium can be characterized as sophisticated rusticity. A strong but limited palette of natural materials – steel, glass, wood, copper, stone and ceramics - were chosen to create perfectly imperfect spaces that are both raw and refined. The design is an artful mix of old and new, honest and refined, that echoes the menu’s offerings. Like downtown Los Angeles itself, Otium has roots in the past and aspirations for the future. RAGS OF HONOR	<a href="https://ragsofhonor.us/">https://ragsofhonor.us/</a>	Rags of Honor was created based on the idea that all homeless veterans can regain their lives if given the stability and dignity of a good-paying job as a starting point. Mark Doyle, the founder, and CEO of the company saw firsthand the sacrifice of servicemen and women in Afghanistan. He was sickened by the injustice of homeless veterans in Chicago and chose to make a difference. In response, Doyle created Rags of Honor as the only silkscreen shop that is 100% operated by homeless and unemployed veterans. The main office of Rags of Honor is in Chicago, Illinois where they also operate their manufacturing facility and warehouse.		L3C

ShoppingGives	<a href="https://shoppinggives.com/">ShoppingGives   The #1 Social Impact Tech</a>	ShoppingGives exists to create social impact with every purchase, having built a community of retailers and nonprofits that give back to one another through their customers and supporters, and we are proud to be a Certified B Corp! The community is created through two unique technologies: an intuitive online fundraising platform and ShoppingGives' Change Commerce®. This technology enables retailers to donate a percentage of each purchase to a nonprofit that the customer selects during checkout, building customer loyalty and trust through charitable giving. This two-sided value proposition drives new incremental customers to the retailers that are both high-intent and highly engaged shoppers. Change Commerce builds both trust and loyalty for the brand, translated into higher conversion rates, increased AOV, and lower cart abandonment for the retailer. By understanding a customer's non-profit affinity through aggregated data, retailers are now enabled to re-engage and communicate to customers in a new way, through a message of giving. The entire process is completely managed and tax-deductible for the retailer, streamlined through ShoppingGives. For the customer, this technology allows them to turn the retailer's giving into a personal experience. From their local PTA to their favorite national cause, each shopper can choose which organization will benefit from their purchases, allowing the retailer to build a more genuine relationship with their customers. TINY TENT HARVEST	<a href="http://tinytentharvest.com">tinytentharvest.com</a>	At Tiny Tent we believe everyone should have access to delicious, locally grown, nutrient packed produce. We got inspired to start this journey by learning about the environmental, economic and health benefits of growing and distributing food within urban communities. In addition to decreasing pollution caused by transportation, growing your own food and buying local supports farming methods that benefit the surrounding ecosystems, instead of harmful methods such as mono-cropping. Our vision is for there to be a tipping point from individuals buying produce at grocery or department stores to growing and distributing food within their own communities. We plan to work towards this goal in the following three ways. First, by educating and collaborating with any level of gardener - especially those yet to have a garden of their own. Second, by providing both familiar and unique strains of every day produce to our local community at affordable prices. And third, through offering consultations for garden space design and construction for any sized space, whether indoor or outdoor		L3C

YORKTOWN VOLUNTEER FIRE ASSOCIATION	<a href="https://www.yorktownfire.org/">https://www.yorktownfire.org/</a>	The Yorktown Heights Engine Company #1 was formed on March 8, 1909 by a group of 33 concerned citizens in the town of Yorktown. After collecting or purchasing some rudimentary firefighting equipment, a barn on Maple Ct. was used as the company's first firehouse. In 1916, the company built a permanent firehouse, on property now known as Commerce St. In May of 1920, the Yorktown Volunteers purchased a 1920 Reo Fire Engine, the first piece of motorized fire apparatus for the company. Also in 1920, the first Fire Department Carnival was held in July, a tradition that still remains to this day. As the population and development of Yorktown increased greatly in the following decades, a new fire station was built on the same property of the first firehouse. In 1968, the Yorktown Heights Fire District purchased a 100 foot Seagrave Ladder truck, the first aerial piece for the district. What started as a small group of citizens and one fire apparatus in 1909, has now developed into a fully operational fire department. Even though the organization still bears the name "Engine Company #1", the company provides full fire suppression services to the Yorktown Heights Fire District, as well as several specialized services	Heights, NY	L3C
YOUTH FOR A BETTER AMERICA	<a href="https://www.yfaba.org/">https://www.yfaba.org/</a>	We provide our teens with guidance, direction, and a constructive way to spend their time after school and on the weekends. We rent out Kiosks in malls and attend festivals over the summer to provide a safe environment for our teens to sell various fundraising items and showcase the skills they have learned in our program. We also provide budget coaching to our teens so they learn how to manage the money they make, save, and become good financial stewards of the resources God has provided them.	Irving, TX	L3C
Youth Guidance	<a href="#">Youth Guidance – Guiding Kids to Bright Fu</a>	Youth Guidance creates and implements school-based programs that enable at-risk children to overcome obstacles, focus on their education and, ultimately, to succeed in school and in life. We believe that success is realized as students stay on track to graduate elementary and high school, develop the skills and abilities needed to make positive choices in their lives, and develop resilience assets such as self-efficacy, anger management, and positive values so that they may live successful, self-sufficient lives as adults. Our specific and strategically developed delivery areas are: Counseling & Prevention (BAM, WOW, STRIVE) Community & After-School (Parent/Family Engagement, Full-Service Community Schools Community Learning Centers and Extended Day & Enrichment Programs), and Career Readiness & Success. Youth Guidance directly serves more than 14,000 youth while touching the lives of many parents, teachers and community members. More than 95% of youth served are African American and Hispanic/Latino. Youth Guidance is accredited by the Council on Accreditation (COA). To learn more	Chicago, IL
