

Dear Mayor Liccardo,

I am genuinely concerned about the process being used to push through a change to our City Charter without allowing sufficient time for significant public engagement. The proposed changes are substantial enough to mandate a Charter Review Commission.

I kindly request that you drop the efforts to place the Charter Change Initiative on the November ballot and convene a Charter Review Commission composed of a cross-section of our community to determine what, if any, changes ought to be made to our City Charter. Their focus should be on changes that would improve the efficiency, effectiveness, and accountability of our City government.

Thank you for your time in this matter.

Sincerely,

<Your Name>

<Your Zip Code>

cc: <Your Council Representative>
