**80.47%**

### **Students have scored very well in the Exams due to the following Reasons:**

- 1. All exams were online as students were unable to come to school.**
- 2. All exams were objective-based and multiple choice questions.**
- 3. It is easier to attempt and score in multiple choice questions as guess work is rampant.**
- 4. Since students were giving exams from home, they could easily open books and find right answers.**
- 5. Also it was easier for the students to communicate with each other through technology and get the right answers.**
- 6. Since understanding through online classes was quite tough, the question papers were not made very tough. Exams were of Average difficulty.**
- 7. No HOTS questions could be included.**
