TREATMENT PRICE LIST

From January 2021 (E&OE)

www.elegant-nails.co.uk

BOOKING TERMS & CONDITIONS

Booking Policy

Appointments are available to book online, one month into the future, and will always go live on the first Sunday of every month at 3pm. Once all availability is booked, you can add yourself to a 'waiting list' on the booking system at any time.

All bookings require a deposit to secure your appointment. This is **non-refundable** and will be deducted from the total amount of your treatment on the day.

I appreciate that sometimes you may need to cancel or reschedule your appointment. Please understand that when you cancel your appointment with little/no notice, you prevent someone else from being able to fill that appointment and break the terms agreed.

To enable me to fill those spaces, I kindly request that as a matter of courtesy you provide at least 48 hours notice. If less than 48 hours notice is given, the deposit will be forfeited and another non-refundable deposit will be required to secure any further appointments.

All deposits are transferable if more than 48hrs notice is provided. No shows/multiple cancellations will result in either full payment being required upfront or no further bookings being taken.

Refunds

If there is an issue with any service provided, please let me know as soon as possible. I will happily rectify any problems free of charge within the first 72 hours of the original appointment at my discretion.

Nail repairs after 72 hours are at a cost of £4.50 per nail. Unfortunately refunds on any treatment will not be given as products, time and resources have been used during your service.

Appointments

Please arrive to your appointment on time. If you are running late, please let me know as soon as possible. Any lateness over 15 minutes with no notice will mean that your appointment will be rescheduled and the non-refundable deposit will be forfeited, meaning another deposit will be required. I am working to strict time schedules with appointments and COVID-19 Cleaning Schedules. Due to social distancing restrictions, you should attend your appointment alone unless you're chaperoning a minor.

Face Coverings

To keep everyone safe, the government has made it mandatory to wear a face covering when visiting salons. Masks are available to purchase, but this is from my PPE stock, so it would be helpful if you could bring your own. If you are exempt from wearing a face covering, please let me know prior to your appointment and I can arrange to put alternative measures in place.

Keeping Us Safe

Prior to your appointment, a COVID-19 Wellness Questionnaire and the relevant Consultation Forms will be emailed to you, these need to be filled in prior to arrival. Within that email, there is a link to my Coronavirus (COVID-19) Infection & Prevention Policy to explain the changes within the Home Salon and what you can expect during your visit.

I will be wearing PPE to carry out your treatment, everything will be sanitised and disinfected prior to your arrival and all one-use items will be disposed of after each treatment. As always, all work surfaces, tools and touch points will be sanitised and disinfected between clients.

30 minute breaks have been allocated between each client to ensure social distancing and hygiene measures take place between clients leaving and arriving. Toilet facilities will be available along with water, or a selection of luxury hot drinks in disposable/recyclable cups.

Nail Biting Recovery Programme £150.00

An 8 week program to stop nail biting and grow natural, healthy, strong nails. We've all done it at one time or another. Stressing over exams or waiting for that important interview outcome, and suddenly before we know it, we're chewing on our fingers. For some, it's an occasional passtime... for others, that habit just gets worse! Nail biting (also known as onychophagia) is an oral compulsive habit.

It's very common, especially amongst children with up to 30% of kids biting their nails. For those who suffer with this compulsion, it can lead to infections of the nail plate, cuticles and surrounding skin. These wounds become an entry point for bacteria, viruses and in more serious cases, fingernails may become deformed due to destruction of the nail bed.

Common treatments include a bitter-tasting nail polish (I remember my Nan slathering this onto my nails when I was about 8 years old.. I couldn't tell you if it worked or not). It tasted awful, but I still sucked on my fingers! Another treatment for severe nail biters is a dental deterrent device that prevents the front teeth from damaging the nail plate and surrounding skin, and after a couple of months it can stop the nail biting urge. I'd like to try another way...

Patch Test required 48 hours minimum before your Eye Enhancement appointment.
Eye & Brow treatments are only available at the Home Salon.

NAIL ART PRICE LIST

What is Nail Art?

Nail Art is a way to express yourself through your fingertips or toes rather than having your nails painted with just one colour. From a simple 'Rockstar' design (glitter nails), to detailed free-hand painting, there are plenty of combinations and design ideas where you can make your manicure or pedicure your own.

History of Nail Art

The exact origin of nail treatments is unclear, since it appears to have originated in different parts of the world around the same time. In ancient Egypt, from 5000 to 3000 BC, women would dye their nails with henna to indicate social status and seductiveness. The Ming dynasty (1368-1644) was known for extremely long nails. Sometimes, these nails were protected by gold and jewel-encrusted nail guards!

The beauty industry has been growing like never before ever since the invention of modern nail polish. The growing trend of Nail Art from women across the world to high-fashion runways is a fantastic way to create your own identify.

Types of Nail Art

élégant nails uses a variety of methods to achieve the look you're wanting to display. From coloured acrylic, gel polish, acrylic art paint, embellishments, water decals/stickers and foils, there's plenty of choice to make your design your own.

It's important to mention, however, that what can be achieved in the salon during your appointment verses pictures of elaborate designs that take 4+hours to create are very different.

If you're wanting to change your nail game and you have a design in mind, please make élégant nails aware before your appointment so the appropriate timings and cost can be applied to your appointment booking.

No Needle Filler treatments are only available at the Home Salon.

No Needle Fillers

No needle fillers deposit natural hyaluronic acid into the epidermal and upper dermal layers on the skin using an innovative device called a 'Hyaluron Pen'. This non-invasive procedure is completed without the use of traditional needles or injections breaking the skin. The process is completed with excellent precision and is a lot safer for the client.

Hyaluronic Acid

Hyaluronic acid is the most hydrating substance in the world and a naturally occurring sugar in the body alongside elastin and collagen. It provides the skin tissue with adequate moisture levels to help hold its form, keeping your skin hydrated and plump.

The body naturally produces hyaluronic acid but can decrease production throughout the aging process. Direct injection of hyaluronic acid gives nearly instant results, plumping the area and boosting hydration, creating a quick anti-aging appearance.

No Needle Filler vs Injections

The Hyaluron Pen treatment is a much newer method to administer dermal filler and is fast becoming a more popular alternative to the injection. When comparing the two methods, the Hyaluron Pen is a safer and more cost effective means of achieving fuller lips, and minimising facial lines. It provides a simpler and non-invasive way of rejuvenating the face.

Without the anxiety and pain associated with needles, the Hyaluron Pen gives clients the opportunity to relax during treatment. As with all derma filler treatments, the cost varies depending on how much and the type of filler used.
