

Fees

Business Consultancy Fees

Every business is different, and we pride ourselves on working closely with you to build a bespoke plan of development.

At no cost to yourselves, we will have an initial meeting to identify your needs and how our experience and knowledge can bring value to your business.

We will then provide you with a quotation and only when you are completely happy with the cost and content of the quotation will we begin working together.

Civil & Commercial Mediation Fees

How long a mediation takes depends on several factors, like how much money is in dispute and how complex the case is, therefore each case will be quoted on prior to commencing any work and the fees are always agreed by both parties and paid for in advance.

We participate in the Fixed Fee Mediation Scheme which is outlined below. If it is agreed that the mediation will require longer than a half day (4 hours) then we charge £800 per full day (8 hours) per party.

Amount being claimed	Fees per party	Length of session
£5,000 or less*	£75	1 hours - telephone/video only
£5,000 or less*	£125	2 hours – telephone/video only
£5,000 to £15,000*	£320	3 hours
£15,000 – £50,000	£445	4 hours
Each additional hour is charged at £100 per party		

*Please note that if you have a dispute of less than £10,000 you may be offered a free 1-hour telephone mediation service by the Court once you have issued a claim form.

The above costs do not include any travel time or mileage unless agreed otherwise with both parties and any costs associated with organising a neutral venue for the mediation.

Although liaison with the lawyers instructed to draw up the settlement agreement is included in the costs, please note the actual cost of the lawyer is additional and needs to be agreed with the lawyer directly.

Workplace Mediation Fees

The fee structure for workplace mediation is slightly different as the fee is often paid for by the employer and the mediation make take place over several days.

Please contact us directly and we would be more than happy to discuss your requirements and provide a quotation.
