

TALISMANS OF THE INFINITE

by

Martin Berkovitz

Infinity is the theme of this category. It is about stretching our minds and awareness far beyond our small planet to the dazzling vastness of a limitless universe. It is also about the inner spiritual infinity that lies at the basis of our beings. It is a state without beginnings, endings, or boundaries.

When I have used alien images it is in no way to deify them. Just as I have expressed Mother of the World and Maitreya-Christos using human iconic forms to suggest the divine in all of us, so I have used alien forms to extend this into a universal expression.

A calm expanding majesty is the best way I can define what I have tried to express in this body of work.
