STEPS TO APPLY THE ONE-STEP KERA-QUIK KERATIN

1

Before

After

Step 1: Wash hair with our clarifying shampoo as needed (once or twice, depending on the client's hair)

Step 2: Dry hair with a towel.

Step 3: Shake the bottle of One-Step Kera-Quik keratin well before use.

Step 4: Apply the organic keratin with an application bottle (preferably) use 1 to 2 ounces per client and consider the length and thickness of your client's hair. If it is not enough, you can add more keratin as needed.

Keratin Amount - Reference

Short Hair - 1.5 oz. | Medium Hair - 2 oz. | Long Hair - 2.5 oz.

Step 5: Gently massage into hair. When massaging you will see a foamy consistency that will lead to a more even distribution of the keratin throughout the hair.

STEPS TO APPLY THE ONE-STEP KERA-QUIK KERATIN

2

Before

After

Step 6: Wait between 20 minutes to 40 minutes (for thicker, longer or rougher hair). The longer the treatment is left on the hair, the smoother it will be.

Step 7: Rinse the treatment from the hair.

Step 8: Dry the hair with a hairdryer. It is not necessary to use the brush in this step.

Step 9: Then iron the hair in **SMALL** sections, with the flat iron.

Use **450 degrees Fahrenheit** on healthy hair - Straighten hair up to 7 times to straighten hair.

Use **375-410 degrees Fahrenheit** on damaged hair - Flat iron hair up to 4 times for anti-frizz effect.

* After the ironing process is finished, you can wash, dye, and treat your hair without affecting the straightening. *
