

Executive Summary: Axis Holdings – Reliable Gold Supply Chain

Axis Holdings stands as a trusted and efficient player in the global gold supply chain, delivering consistent, legal, and competitively priced gold from carefully selected and credible mining partners across **Africa and Asia**. With a well-coordinated infrastructure, Axis Holdings ensures end-to-end management, covering sourcing, logistics, and financial structuring to meet international standards and client expectations.

Supply Capacity and Structure

- Axis Holdings has the capacity to supply up to:
 - **2 tons of gold doré bars monthly**
 - **4 tons of refined gold bullion monthly**
- Delivery terms are on **CIF basis**, backed by an **acceptable Standby Letter of Credit (SBLC)** issued by **top-tier international banks**.
- Supply volume can scale based on cash liquidity or credit support, offering clients a flexible and responsive procurement solution.

Credibility and Legality of Sources

- All gold is sourced from **legally registered and licensed mining companies** in Africa (notably Ghana, Burkina Faso, and Tanzania) and Asia (including Indonesia and the Philippines).
- These mines are certified by local and international regulatory bodies and permitted to engage in extraction and trade.
- Every supplier is **carefully vetted** for operational transparency, environmental compliance, and ethical mining practices.

Management and Control

- All suppliers operate **under the direct oversight of Axis Holdings**, ensuring consistency in quality, legality, and delivery.
- Axis Holdings provides:
 - **Full logistical coordination**, including secure transport and customs clearance.
 - **Funding and working capital support**, ensuring minimal disruption in the supply process.
 - **On-ground presence** with dedicated teams at mining sites and transit hubs for real-time supervision and quality control.

Competitive Advantage

- Axis Holdings delivers **high-purity gold** at **internationally competitive prices**, offering strong value for investment and trade.
- Its integrated model ensures traceability, legal conformity, and a reliable chain of custody from mine to refinery or end buyer.
- The firm maintains **transparent documentation**, including export licenses, assay reports, chain of custody records, and transaction traceability.

This gold supply chain model reflects Axis Holdings' commitment to legal compliance, financial integrity, and operational excellence, making it a reliable partner for institutional buyers, refineries, and international investors.
