

## Art

### Did you enjoy doing art lessons when you were a child?

Yes, art was way more fun than other subjects like maths! I was really into art when I was a kid. I was always drawing and sketching. I liked to make short comic strips to entertain my classmates.

### Do you ever draw or paint pictures now?

No, I don't. Making good art is very time-consuming, and I'm not talented enough to take it seriously. However, I often doodle when I am working.

### When was the last time you went to an art gallery or exhibition?

Last weekend I went to an exhibition about the graffiti artist Banksy. I really like his work; it is fun and thought-provoking.

### What kind of art do you have in your home?

Well, I live with my parents, so they decide! In our house, we have a few landscape paintings which I think are quite dull. In my bedroom, I have some posters of my favourite bands and films.

**Sketch:** a simple, quickly-made drawing that does not have many details.

**Comic strip:** a short series of funny drawings with a small amount of writing.

**Time-consuming:** taking a lot of or too much time.

**Doodle:** to draw pictures or patterns while thinking about something else or when you are bored.

**Thought-provoking:** makes you think a lot about a subject.

**Landscape:** a painting of the countryside.
