

Internet

How often do you go online?

I'm online pretty much all day! I am always glued to my phone. I use it whenever I have a spare moment.

What do you use the internet for?

I use it for lots of different things, for work, social media, and shopping. I often just browse the internet to find things that interest me. To relax, I often scroll through my Facebook feed.

Do you have your own computer?

I share a laptop with my boyfriend at home, and I have a laptop at work. I work as an accountant, so I do all my calculations on spreadsheets. I also need to send emails.

What's your favourite website?

My favourite website is a shopping site called Tiki. It is like the Vietnamese version of Amazon. It sells everything from electronics to toiletries. They deliver to my home, so it is really convenient.

Glued to: to look at something with all your attention.

Spare moment: time when you are not working.

Browse: to look through information without a particular purpose, just looking for the most interesting parts.

Scroll: to move information on a computer screen up or down so that you can read it.

Spreadsheet: a computer program that can show and calculate financial information.
