SMEG, IS AN ACRONYM

 *A family company since 1948*

Founded in 1948 by Vittorio Bertazzoni in Guastalla Italy, 75 plus years later SMEG is still family-owned and operated. SMEG is celebrated worldwide for its Italian-designed products that blend exceptional performance with timeless style.

At the base of the SMEG philosophy there are two fundamental principles:

1. Technology with style. Advanced technologies are hidden behind a distinctive aesthetic emblem of Italian design.
2. Not just products, creations. Products born from the collaboration with internationally renowned architects who combine technology with beauty in the making, designed to last over time.
