

# PANEL BUILDING AND RE DESIGNING

BEFORE

AFTER

From simple, basic control panels to special, complex build; in bespoke sizes and shapes, we can build a control system that will comfortably fit any machinery or custom project you may have. We cover all aspects of control panel building; from design through to manufacture and software programming with fast lead-times, ensuring you receive your panel on-time, every-time. By listening to, and understanding, your requirements we can design and build a system that will fulfil your needs.

We support a wide range of industries, including

AEROSPACE & AUTOMATION—ENERGY & POWER—FOOD & BEVERAGES  
 MANUFACTURING & UTILITIES—QUARRY & MINING—RECYCLING  
 TRANSPORT & INFRASTRUCTURE- PHARMACEUTICAL

## GET A CUSTOM QUOTE TODAY

Our team of experts will work with you to understand your needs, then design and build a panel to your exact specifications. Every step is thoroughly considered, from project objects, to electrical drawings and documentation, to outfitting the panel with industry-best components.
