

Professional Blender
and Catering Equipments

FTG-50ST

- Multifunction: crush ice, smoothie, juice, soy-bean milk, soup and living foods
- High quality food grade stainless steel blade, precision bearing, high quality oil seals and Hardware precision machining to keep the blade group more longer using life
- Jar Material: high quality food grade transparent polycarbonate or COPOLYESTER without BPA
- Jar capacity: 2.0/3.9/4.0/5.0 Liters
- Big size pure copper motor with 34000RPM
- Strong clutch with inside stainless steel insert, not easily damage, more longer using life
- Two protection system: over current protect and heating temperature protection
- Motor power: 2000W/2200W
- Mechanical control with timer function, 5minutes timer, 10speeds adjustable, pulse function.

FT-901
with sound cover

- High performance professional blender with sound cover
- High quality sound cover, lower noise
- High quality food grade stainless steel blade
- Three protection system: safety switch, over current switch protector and over heating motor protector
- Big size pure copper motor with high speed 28000rpm
- Manual control: 10 speeds adjustable and pulse function
- Jar capacity: 1.6liters
- Motor power: 1800W

FT-901MD

- High performance professional blender with sound cover
- High quality sound cover, lower noise
- High quality food grade stainless steel blade
- Three protection system: safety switch, over current switch protector and over heating motor protector
- Big size pure copper motor with high speed 28000rpm
- Manual control: 10 speeds adjustable and pulse function
- Jar capacity: 1.6liters
- Motor power: 1800W

FT-903

Intelligent digitol touch control with sound cover

- High performance professional blender with sound cover
- High quality sound cover, lower noise
- High quality food grade stainless steel blade
- Three protection system: safety switch, over current switch protector and over heating motor protector
- Big size pure copper motor with high speed 28000rpm
- Manual digital control, preset 5 functions: smoothie, juice, extract, milk shake and soybean milk Manual adjust 10 speeds, soft start function
- Motor power: 1800W
- Jar capacity: 1.6liters
- Motor power: 1600W

SJ-801

- Rated power: 180W
- Motor speed: 37RPM/MIN
- Large diameter
- Ac motor
- Stainless steel edge

Professional Blender
and Catering Equipments

SJ-802

- Rated power: 240W
- Motor speed: 65RPM/MIN
- Large diameter
- Dc motor

Professional Blender
and Catering Equipments

Fructose
quantitative machine

- Power 350W, Synchronous motor,
- Taiwan Transmitting tube,
- Inner body material: stainless steel 304,
- Inner body cover material: stainless steel 304,
- Two wire switch
- Outer body: stainless iron baking paint
- Casting thick heat plate
- Sugar outlet ABS

FT-CG01 Coffee grinder

- Molar teeth blade, 78mm diameter
- 10 gears to adjust the thickness from thin to thick
- Anti-jump bean design
- Safety switch protector
- Iron casting body
- 220V-240V 50/60Hz 200W
- motor speed: 3000rpm
- Bean barn: 150g

FT-CG02 Coffee grinder

- Molar teeth blade, 78mm diameter
- 10 gears to adjust the thickness from thin to thick
- Anti-jump bean design
- On/off and pulse switch
- Safety switch protector
- Iron casting body
- 220V-240V 50/60Hz 200W
- Motor speed: 3000rpm
- Bean barn: 150g

FT-901D

- High performance professional blender with sound cover
- High quality sound cover, lower noise
- High quality food grade stainless steel blade
- Three protection system: safety switch, over current switch protector and over heating motor protector
- Big size pure copper motor with high speed 28000rpm
- Digital touch control, preset 4 functions, Smoothie, Juice, extract and milk shake. Also you can use the "set" function to DIY set working time and speed. Pulse function and soft start function
- Motor power: 1800W
- Jar capacity: 1.6liters

FT-308DC

Multifunction extract tea machine

- Multifunction: extract tea, smoothie, juice, milkshake
- High grade food quality transparent polycarbonate jar
- Intelligent digital touch control, Preset 7 functions, easy to use
- Auto DIY set working time and speed, LCD display
- Three optional jars: 1.0L extract tea jar, 1.6L smoothie jar, 1.0L milkshake jar
- Motor power: 1200W

Stepping
water heater

- 220V, 2000W
- Inner body capacity: 10 liters, water flow: 35liters/hour
- Inner body material: stainless steel 304
- Heating tube material: Stainless steel 316
- Water level needle: Stainless steel 316
- Outer body material: Stainless steel 304
- Fuller faucet material: Stainless steel 316
- Interior tube: food grade silica gel tube

10L water boiler

- Rated power: 1600w
- Double heat preservation
- Inner body #201 stainless steel

25L water boiler

- Rated power: 2000W
- Double heat preservation
- Inner body #304 stainless steel
- 100% reject steam water

Professional Blender and Catering Equipments

FTA-45MS

- New design, low noise and longer using life
- Multifunction: crush ice, smoothie, juice, soy-bean milk, soup and living foods
- High quality food grade Stainless steel blade, imported bearing NSK or NMB from JAPAN and TAIWAN oil seals and processing hardware precision to make the blade group more longer using life
- Jar material: high quality food grade transparent polycarbonate or TRITAN material without BPA
- Big size pure copper motor with high speed 3000RPM
- Two protection system: over current protect and Safety switch only run when the jar be in place
- Mechanical control with stepless speed regulation and pulse function
- The strong clutch with stainless steel inserts, not easily damage, longer using life
- Jar capacity: 2liters
- Motor power:1800W

FTA-45ST

Mechanical control with timer and variable speed design

- New design, low noise and longer using life
- Multifunction: crush ice, smoothie, juice, soy-bean milk, soup and living foods
- High quality food grade Stainless steel blade, imported bearing NSK or NMB from JAPAN and TAIWAN oil seals and processing hardware precision to make the blade group more longer using life
- Jar material: high quality food grade transparent polycarbonate or TRITAN material without BPA
- Big size pure copper motor with high speed 3000RPM
- Two protection system: over current protect and Safety switch only run when the jar be in place
- Mechanical control with timer, variable speed and pulse function
- The strong clutch with stainless steel inserts, not easily damage, longer using life
- Jar capacity: 2liters
- Motor power:1800W

FTA-35MS

- High quality food grade stainless steel blade, precision bearing, high quality oil seals and
- Hardware precision machining to keep the blade group more longer using life
- Jar Material: high quality food grade transparent polycarbonate or COPOLYESTER without BPA
- Big size pure copper motor with 3000RPM
- Strong clutch with inside stainless steel insert, not easily damage, more longer using life
- Two protection system: over current protect and heating temperature protection
- Safety switch only run when the jar be in place
- Mechanical control with stepless speed and pulse function
- Jar capacity: 2liters
- Motor power:1800W

FTB-35MS

- High quality food grade stainless steel blade, precision bearing, high quality oil seals and
- Hardware precision machining to keep the blade group more longer using life
- Jar Material: high quality food grade transparent polycarbonate or COPOLYESTER without BPA
- Big size pure copper motor with 3000RPM
- Strong clutch with inside stainless steel insert, not easily damage, more longer using life
- Two protection system: over current protect and heating temperature protection
- Safety switch only run when the jar be in place
- Mechanical control with stepless speed and pulse function
- Jar capacity: 2liters
- Motor power:1800W

Professional Blender and Catering Equipments

FT-306D

- High quality food grade stainless steel blade, precision bearing, high quality oil seals and
- Hardware precision machining to keep the blade group more longer using life
- Jar Material: high quality food grade transparent polycarbonate or COPOLYESTER without BPA
- Big size pure copper motor with 3000RPM
- Strong clutch with inside stainless steel insert, not easily damage, more longer using life
- Two protection system: over current protect and heating temperature protection
- Safety switch only run when the jar be in place
- Digital press control, preset time from 30S to 360S and Preset high and low speed, Pulse function
- Jar capacity:3liters
- Motor power:1800W

FT-306MS

- Multifunction: crush ice, smoothie, juice, soy-bean milk, soup and living foods
- High quality food grade Stainless steel blade, imported bearing NSK or NMB from JAPAN and TAIWAN oil seals and processing hardware precision to make the blade group more longer using life
- Jar material: high quality food grade transparent polycarbonate or TRITAN material without BPA
- Big size pure copper motor with high speed 2800RPM
- Two protection system: over current protect and over heating motor protector
- Manual control, variable speed and pulse function
- The strong clutch with stainless steel inserts, not easily damage, longer using life
- Jar capacity: 3 Liters
- Motor power:1800W

FTB-40ST

Big capacity 4.0L/5.0L, Big Power

- New design, low noise and longer using life
- Multifunction: crush ice, smoothie, juice, soy-bean milk, soup and living foods
- High quality food grade Stainless steel blade, imported bearing NSK or NMB from JAPAN and TAIWAN oil seals and processing hardware precision to make the blade group more longer using life
- Jar material: high quality food grade transparent polycarbonate or TRITAN material without BPA
- Big size pure copper motor with high speed 3400RPM
- Two protection system: over current switch protection and over heating protector
- Mechanical control with Variable speed and pulse function and timer function
- The strong clutch with stainless steel inserts, not easily damage, longer using life
- Jar capacity: 4.0/5.0Liters
- Motor power: 1800W or 2000W

FTA-50ST

Big Capacity, Big Power

- New design, low noise and longer using life
- Multifunction: crush ice, smoothie, juice, soy-bean milk, soup and living foods
- High quality food grade Stainless steel blade, imported bearing NSK or NMB from JAPAN and TAIWAN oil seals and processing hardware precision to make the blade group more longer using life
- Jar Material: high quality food grade transparent polycarbonate or COPOLYESTER without BPA
- Big size pure copper motor with high speed 3200RPM
- Two protection system: over current protect and over heating motor protector
- Mechanical control with Variable speed and pulse function and timer function
- The strong clutch with stainless steel inserts, not easily damage, longer using life
- Jar capacity: 4.0/5.0Liters
- Motor power: 1800W or 2000W

Professional Blender and Catering Equipments

FTA-35D

- Multifunction: crush ice, smoothie, juice, soy-bean milk, soup and living food
- High quality food grade stainless steel blade, precision bearing, high quality oil seals and
- Hardware precision machining to keep the blade group more longer using life
- Jar Material: high quality food grade transparent polycarbonate or COPOLYESTER without BPA
- Strong clutch with inside stainless steel insert, not easily damage, more longer using life
- Jar Capacity: 2liters
- Big size pure copper motor with 3000RPM
- Two protection system: over current protect and Safety switch only run when the jar be in place
- The strong clutch with stainless steel inserts, not easily damage, longer using life
- Mechanical and digital control, preset five function programs: Smoothie, juice, extract, milkshake and soybean milk, manual adjust 10speeds, Soft start function, pulse function
- Jar capacity: 2liters
- Motor power: 1500W/1800W

FTB-35D

- Multifunction: crush ice, smoothie, juice, soy-bean milk, soup and living foods
- High quality food grade stainless steel blade, precision bearing, high quality oil seals and
- Hardware precision machining to keep the blade group more longer using life
- Jar Material: high quality food grade transparent polycarbonate or COPOLYESTER without BPA
- Strong clutch with inside stainless steel insert, not easily damage, more longer using life
- Jar capacity: 2liters
- Big size pure copper motor with 3000RPM
- Two protection system: over current protect and heating temperature protection
- Intelligent digital control touch key with LED display
- Motor power: 1500 W/1800W

FT-803MD

- New design, low noise and longer using life
- Multifunction: crush ice, smoothie, juice, soy-bean milk, soup and living foods
- High quality food grade Stainless steel blade, imported bearing NSK or NMB from JAPAN and TAIWAN oil seals and processing hardware precision to make the blade group more longer using life
- Jar material: high quality food grade transparent polycarbonate or TRITAN material without BPA
- Big size pure copper motor with high speed 3000RPM
- Two protection system: over current protect and heating temperature protection
- The strong clutch with stainless steel inserts, not easily damage, longer using life
- Mechanical and digital control, preset five function programs: Smoothie, juice, extract, milkshake and soybean milk, manual adjust 10speeds, Soft start function, pulse function
- Jar capacity: 2liters
- Motor power: 1500W/1800W

FTB-35MD

- Multifunction: crush ice, smoothie, juice, soy-bean milk, soup and living foods
- High quality food grade stainless steel blade, precision bearing, high quality oil seals and
- Hardware precision machining to keep the blade group more longer using life
- Jar Material: high quality food grade transparent polycarbonate or COPOLYESTER without BPA
- Strong clutch with inside stainless steel insert, not easily damage, more longer using life
- Jar capacity: 2liters
- Big size pure copper motor with 3000RPM
- Two protection system: over current protect and heating temperature protection
- Two separated control system digital control and mechanical control
- Motor power: 1500 W/1800W

Professional Blender and Catering Equipments

FT-308

- Low noise and longer using life
- Multifunction: crush ice, smoothie, juice, soy-bean milk, soup and living foods
- High quality food grade Stainless steel blade
- Jar material: high quality food grade transparent polycarbonate
- Big size pure copper motor with high speed 2600RPM
- Two protection system: over current protect and heating temperature
- Mechanical control with stepless speed regulation and pulse function
- Jar capacity: 1.6liters
- Motor power: 1500W
- Injection black color

FT-308W

- 220v-240v rated frequency 50/60Hz Rated power 1500W
- Motor speed 2600RPM, Jar Capacity:1.6/2.0liters
- Food grade PC cup, stainless steel #304 material knife set
- Taiwan oil seal, bearing imports from Japan
- Double safety protection: motor overheating protection, current protection
- Mechanical control ,10speeds adjustable and pulse function
- Pulse function
- Stainless steel Driver socket, strong and durable

FT-408MS

- 220v-240v rated frequency 50/60Hz Rated power 1800W
- Motor speed 2800RPM
- Jar Capacity: 2.8liters
- Manual control, variable speed, pulse function
- Taiwan oil seal, bearing imports from Japan
- Double safety protection: motor overheating protection, current protection
- Stainless steel Driver socket , strong and durable

FT-302

- Multifunction: crush ice, smoothie, juice, soy-bean milk, soup and living foods
- High quality food grade stainless steel blade, precision bearing, high quality oil seals and
- Hardware precision machining to keep the blade group more longer using life
- Jar Material: high quality food grade transparent polycarbonate or COPOLYESTER without BPA
- Jar capacity: 2liters
- Big size pure copper motor with 2600RPM
- Strong clutch with inside stainless steel insert, not easily damage, more longer using life
- Two protection system: over current protect and heating temperature protection
- Mechanical control with stepless speed and pulse function
- Motor power: 1500W

Professional Blender and Catering Equipments

FT-301

- Low noise and longer using life
- Multifunction: crush ice, smoothie, juice, soy-bean milk, soup and living foods
- High quality food grade Stainless steel blade
- Jar material: high quality food grade transparent polycarbonate
- Big size pure copper motor with high speed 2600RPM
- Two protection system: over current protect and heating temperature
- Mechanical control with stepless speed regulation and pulse function
- Jar capacity: 2.0liters
- Motor power: 1200W/1500W
- Injection black color

FT-806MD

- Low noise and longer using life
- Multifunction: crush ice, smoothie, juice, soy-bean milk, soup and living foods
- High quality food grade Stainless steel blade with imported Japan bearing and Taiwan oil seals to make the blade more longer using life
- Jar Material: high quality food grade transparent polycarbonate
- Strong clutch with inside stainless steel insert, not easily damage, more longer using life
- Super power motor with pure copper wire with 3400RPM
- Two protection system: Over current protect switch and heating temperature protection
- Manual digital control, preset 1-5minutes timer, 10 speeds adjustable, pulse function
- Jar capacity: 4.0L/5.0Liters
- Motor power: 2000W/2200W

FT-806MS

- Low noise and longer using life
- Multifunction: crush ice, smoothie, juice, soy-bean milk, soup and living foods
- High quality food grade Stainless steel blade with imported Japan bearing and Taiwan oil seals to make the blade more longer using life
- Jar Material: high quality food grade transparent polycarbonate
- Strong clutch with inside stainless steel insert, not easily damage, more longer using life
- Super power motor with pure copper wire with 3400RPM
- Two protection system: Over current protect switch and heating temperature protection
- Mechanical control with no-grade speed adjustor and Pulse function
- Jar Capacity:3.9/4.0/5.0 Liters
- Motor power:2000W/2200W

FTG-50MS

- Low noise and longer using life
- Multifunction: crush ice, smoothie, juice, soy-bean milk, soup and living foods
- High quality food grade Stainless steel blade with imported Japan bearing and Taiwan oil seals to make the blade more longer using life
- Jar Material: high quality food grade transparent polycarbonate
- Strong clutch with inside stainless steel insert, not easily damage, more longer using life
- Super power motor with pure copper wire with 3400RPM
- Two protection system: Over current protect switch and heating temperature protection
- Mechanical control with no-grade speed adjustor and Pulse function
- Jar Capacity:2.0/3.9/4.0/5.0 Liters
- Motor power:2000W/2200W
