NOTE

[illegible]

DZ-260H/310H is a compact and lightweight automatic vacuum packing machine for kitchen equipment with innovative design and high performance. The Polystyrene vacuum chamber and completely stainless steel frame ensures a perfect vacuum in a super-powerful room. Thanks to a sensory vacuum system and a touch panel with 12 preset,digital display ,12 memory programs,it is extremely easy to use. DZ-260H/310H perfectly packs products in bags or containers. The transparent tempered glass cover allows better product visibility during packing.

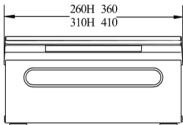

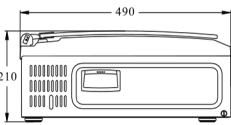

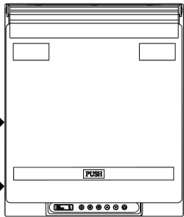

Technical Characters!

- ◆.Compact sizeLight weight
- ◆.High-end appearance
- ◆.Both household & commercial use
- ◆.Vacuum food or pickle food

DZ-280E is an ideal vacuum packing machine for small & fl exible industry. Typically selected by butcher shops, hotels. Restaurants, institutions, grocery stores. It is perfect for vacuum packaging your product to extend shelf life,prevent freezer burns and maintain your product in a controlled atmosphere.

This machine is mainly applied to seal composite film packaging materials. The solid, liquid, powder, paste and other properties of objects can be vacuum packed even insert gas by this machine. After vacuum packaging, products can be prevented oxidation and mildew, food can be kept fresh and it can effectively reduce the products dimension to make it easier to transport and storage. it can be widely used in food, medicine, electronics, chemicals and other field, is a good choice for factories, shops, service industry and so on.

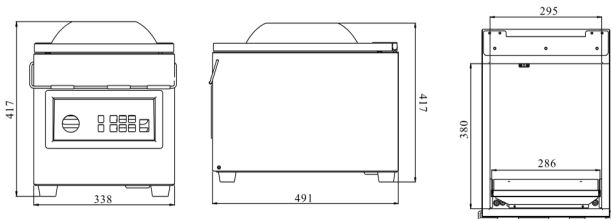

Technical Characters!

- ◆ Smart PCB provides several working modes.
- ◆ Main structure use ◆◆◆ stainless steel.
- ◆ Reliable vacuum pump,Busch pump is optional.
- ◆ Gas insert and oil filter are optional.

DZQ series double chambers vacuum packaging machine is suitable for vacuum sealing all kinds of heat-sealed packages. The products after packing can be prevented from oxidation, going mould, insects or getting damp, thus can be kept fresh for long storage. It is an ideal vacuum packaging machine for big & fl exible industry, typically selected by butcher shops, hotels, Restaurants, institutions, grocery stores.

DZQ-850S vacuum packing machine is the ideal solution for the automated packaging of large batches in film pouches. Our vacuum machines are impressive in their high level of production, output, and pack quality - even when used under maximum load in non-stop mode. The products are loaded by the automatic product infeed conveyor and are decoupled from the packaging process. Combined with semi-automatic pouch loading, shrinking, and drying units, a whole packaging line can be produced from a single source.

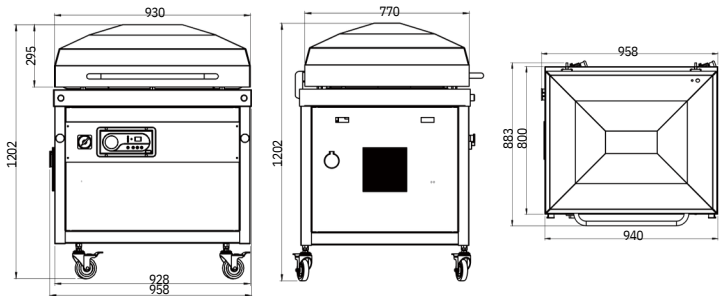

Technical Characters!

- ◆High speed production
- ◆Hygienic design for easy cleaning
- ◆Reliable use with a wide range of pouch materials
- ◆Individual selection of vacuum pumps and equipment
- ◆High level of flexibility and pack quality

ST series Dip/shrink tank is a versatile shrinking unit which is an ideal extension for chamber machines, not only with regard to operability and design. It's constructed of a high-quality stainless steel. The movement of the product support and the heating could be done electrically. The heavy duty casters (with brake) on the machine suitable for mobile use.

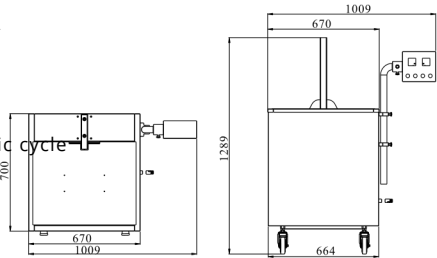

Technical Characters!

- ◆ Stainless Steel Construction.
- ◆ Efficient Electric Heating.
- ◆ Programmable Temperature Control.
- ◆ Simple Push Button Cycle Operation.
- ◆ Easy Access for Cleaning and Maintenance.

MAP is the latest healthy Foods & Ready Meals innovation. They are widely to be used to pack ready meal, fruit, salmon fi sh, seafood, meat, beef steak, cheese, fruit, vegetables etc. Boosts consumer appeal by preserving food quality and keeping food stationary in the tray. Removing the oxygen preserves the food to extend the shelf life of the product. Vacuum-sealed technology ensures that the food taste and ingredients are captured at their freshest.

The Super◆◆◆ table top cling fi lm wrapper can pack a variety of diff erent products such as fruit vegetable meat egg mushroom sea food and ready meals.
With an average of ◆◆ packs per minute, the packaging effi cieny is about three times than manual.It can help you increase productivity and reduce consumables
Diff erent fruits and vegetables require diff erent packaging methods with tray or without tray

Hand sealer is suitable for sealing fi lms in PE PVC and PP materials.
 We have hand sealer with diferent body material like aluminium. iron and plastic, PFS C type machine has a side cutterit can cut down the fi lm after sealing.

Technical Characters!

- ◆.Blue and gray are regular color
- ◆.Only use copper material transforer
- ◆.OEM logo is available
- ◆.Fuse and special plug are optionel

DBF-770W Band Sealer 连续封口机

型号 Model	DBF-770W
电源 Voltage(V/Hz)	220V/50Hz
功率Power consumption(kw)	1.5kw
密封速度Sealing speed(m/min)	1-2
密封宽度Sealing width(mm)	1-2
温度范围Temperature range(°C)	1-2
最大载重Conveyor loading(kg)	1
外形尺寸 Dimension(mm)	1100×400×150
重量 Weight(kg)	15

DBF-770WL Band Sealer 卧立两用连续封口机

型号 Model	DBF-770W
电源 Voltage(V/Hz)	220V/50Hz
功率Power consumption(kw)	1.5kw
密封速度Sealing speed(m/min)	1-2
密封宽度Sealing width(mm)	1-2
温度范围Temperature range(°C)	1-2
最大载重Conveyor loading(kg)	1
外形尺寸 Dimension(mm)	1100×400×150
重量 Weight(kg)	15

The machine is an ideal option for sealing small packages. It uses constant temperature control system, reliable quality motor and gear box. It can seal plastic films made from various materials continuously. Embossing wheel and counting device are optional.

Technical Characters!

- ◆.DBF-◆◆◆ series are available in three models: horizontal model DBF-◆◆◆W, vertical model DBF-◆◆◆WL and console model DBF-◆◆◆LD
- ◆.Main structure material is made of MS or SS
- ◆.Conveyor table could emboss your company logo or name

FM series of in shrink sealer has advantage of fast heating,compact size and shrinking sealing in . it is very suitable for PVC POF fi lm shrink and sealing,widely used in food,printing,supermarket and stationary industry.

FM-3028/4535/5540/5540A Shrink Machine 二合一收缩机

型号 Model	FM-	FM-	FM-	FM- A

BS-4525A/4535A Shrink Machine 热收缩机

型号 Model	BS-4525A	BS-4535A
电源 Voltage(V/Hz)	220V/50Hz	
功率 Power(kw)	5.5	7.5
最大包装尺寸Max packing size(mm)	4525×1000	4535×1000
速度 Speed(m/min)	1-2	1-2
包装尺寸 Dimension(mm)	4525×1000×1000	4535×1000×1000
重量 Weight(kg)	100	120

Hp- is a manual type ribbon coding machine,very simple and easy to operate.
 Hp- is a automatic type ribbon coding machine.
 These models are very economical, very suitable for small factories or stores to use.Ribbon has diff erent color to choose and easy to replace.Pls notethe coding part need at least mins to pre-heat,otherwise the temperature is too low so the ribbon can not be print on the products.
