

CAPITAL GEOSPATIAL PARTNERS

Ideal Candidate:

- 1+ year of field surveying experience
- A Class 5 Driver's License
- Ability to work independently but know we've got your back when you need support
- Drone license or experience is a bonus
- Experience working with pipeline right-of-ways
- Most of our work is in Alberta but British Columbia experience is a plus
- Drafting experience is helpful but we can teach you if you're willing to learn
- Willingness to grow with the company and be part of something bigger

Job Posting: Surveyor

Join Our Growing Team

We are Capital Geospatial Partners, and we're looking for a surveyor who's ready to dive in, grow with us, and make a real impact.

This is more than just a job – it's a chance to be part of something exciting. We're a small but growing company that's been around for five years, and we believe in building strong relationships, supporting each other, and working hard to deliver quality results. We're in this together, and you'll never be just a number here.

About the Role

We're looking for someone with at least 1 year of experience in the field. If you've worked on pipelines, have experience working in BC, or have some experience drafting, that's a huge plus. If you have a drone license, even better! But if not, no worries – we're more than willing to train the right person with the right attitude. What really matters to us is that you're independent, can handle the field on your own, and want to be part of an incredible team.

Location: The greater Edmonton area

At Capital Geospatial, we're not just looking for someone to fill a role – we're looking for someone who wants to be part of a journey. If that sounds like you, we'd love to hear from you.
