**MAKING THE  
BLACK VOTE MATTER  
IN THE 2019 - 2020 ELECTIONS**

## TALKING POINTS

1

**Not voting in 2019 and 2020 elections is dangerous!** Criminal justice reform, health care, affordable housing, and vital resources may be lost without a strong black voter turnout--in all voting age groups. Download the full **Turnout Sunday Toolkit** for Special 2019 Elections.

2

A strong Black voter turnout is key to electing leaders who will stand strongly against systemic racism, voter suppression, and white nationalistic terrorism.

3

**8 million Black Americans are now unregistered to vote.** 2019 and 2020 voter registration--especially among younger African American eligible voters--is very important.

4

**Black churches and pastors play a vital role** in helping congregations understand issues at stake in the 2019 and 2020 elections, and utilizing voting tools to prevent efforts to block the black vote (Examples: Absentee Ballots, Early Voting, Same Day Voting, and Online Voting.)

5

In the 2016 Election, 6 states had more unregistered black voters than the margin of victory by the President - Florida, Georgia, Michigan, North Carolina, Pennsylvania, and Texas.
