Media presentation, Revision 1, September 8, 2022

What Makes Majoda Stables Different?

Unique from many horseback riding facilities, Majoda is a casual, pressure-free, loving environment for people of any age and any ability who enjoy horses and want to be around them.

Our focus is on the love of horses, riding and barn life - not competition. Majoda teaches a healthy, holistic, community-centric approach to horsemanship centered on acceptance and inclusion.

No special equipment or clothing is needed (*other than safely helmets, provided to our riders at no charge*) We are happy in our jeans, leggings and rubber boots.

We'd love to tell you more about our approach to natural horsemanship and why so many people love it here at Majoda Stables.

Majoda Stables is for Everyone

Traditional Riding

Majoda offers riding instruction from novice to advanced for all ages - preschooler through retiree. Majoda riders often expand their experience to advanced horsemanship, and many become part of brigade of dedicated volunteers.

Therapeutic Riding

For our clients with special needs, therapeutic riding experiences help build physical strength, self-confidence and a sense of accomplishment. Therapeutic riding is open to all ages with a wide range of disabilities. Many of our therapeutic riders began with Majoda as children, continue to ride in our therapeutic program as adults.

Barn life

Majoda Stables is so much more than riding lessons. All our riders learn barn skills, horsemanship, and how to be responsible, accountable, and safe around these sensitive, intelligent animals.

What is Equine Therapy/Therapeutic Riding?

Equine therapy is an experiential therapy using activities and interactions with horses. Making a personal connections with horses and the people who work with horses, helps develop empathy, improves socialization, and assists with impulse control. Equine therapy can be a powerful way to assist those with disabilities, brain injury, or mental illness to become the best versions of themselves, developing self-confidence, appropriate situational response and problem-solving skills while helping improve physical health and offering a sense of accomplishment.

Majoda Stables is a certified PATH therapeutic equine facility.

PATH instructors complete a rigorous certification program to meet the standards of knowledge of disabilities, equines, teaching and human-animal interactions necessary to be effective as a therapeutic riding instructor.

Events and Fun at Majoda Stables

There is always something fun happening at Majoda! We regularly host events that are just for fun (and funds!).

- **Our twice-annual open house in May and October** is a chance for the community to visit and enjoy our farm, and activities. The open house features an inclusive horse show featuring our students. *Enjoy a selection of vendors, food trucks, music, barn tours and interaction with all our farm animals.* Our advanced riders perform with professional dancers of the Equus Project. The silent auction and basket raffles are always a good-natured competition.
- **Movie nights:** kids and adults are welcome to enjoy movies under the stars featuring family friendly entertainment of a "Horsey" nature
- **Dances and musical events**- a more grown-up event featuring local musicians, dancing and refreshments.
- **Summer, and holiday camp!** Riding lessons on saddle and bareback, swimming pool, trail rides, horsemanship education, arts and craft, costume parade.

Following us on social media or checking our website regularly will keep you informed of what's on the event list and how you can participate or cover the event.
