I love how nice my deck looks now! I have a fairly large deck with lots of spindles, a set of stairs, a pergola and lattice around the bottom of my deck.

Jon power washed my entire deck/stairs/pergola/lattice (took about 1/2 day), he spent a couple of days sanding down my entire deck project which was needed due to wood roughness and the previous owner doing a lazy multicolor stain job. He then hand stained my entire deck/stairs/pergola and spray stained my under deck lattice.

I believe I contacted Jon in March and he had me booked after a couple of other projects for the end of May. Due to the weather being very very wet and rainy in 2015, my project got pushed to late June and took about 2 weeks to complete.

Book him early! He is worth every penny.

Great work, good man, would use again.

I looked everywhere for someone who would do the hard work of stripping layers and layers of paint off my deck (from previous owners) to allow for a nice, semi-transparent stain so you can actually see the pretty wood underneath. No one was willing to put in the elbow grease required to restore the wood. Thankfully, I found John who loves working with wood and takes great pride in his work. He stripped our deck, sanded the wood since it was splintering, stained it, and even did some extra woodworking to just make the deck prettier. I couldn't be more please. This was over a year ago and a just had him back because I like to do a yearly maintenance touch up to make sure things are in tip-top shape. He power washed it and touched up a few areas and it is good as new again. Highly recommend.

Can't recommend John enough. By far the cheapest quote I received to power wash my deck and house, and he did a stellar job! Prompt, responsive and easy to reach. I'll be sure to contact John again for my next wash!

Jon and the Armor team did an amazing job with the final project! It took some time to figure out what we'd want in a fence that would aesthetically stand out in our neighborhood. We researched and got probably 10+ estimates from other companies to come out and surveyed our yard/neighborhood. In the end, finally went with Armor due to the competitive pricing and also was very detailed with the vision. Even though we kept sleeping on every little idea and kept changing what we wanted, Jon took the time to make the changes to all the bids. In the end, we're very satisfied with the results! Highly would recommend, especially in this market. Our pup is already taking advantage of the new fence!

We worked with Jon on the construction of a wood privacy fence for our backyard. Jon was great to work with; no pressure sale, super knowledgeable and he took care of everything all the way to the preference of fence caps. He made sure everything was to our liking, and double-checked measurements as well as property lines. The construction of the fence went smoothly, was the lowest bid of four, and neighbors are already asking for referrals. Very pleased with our experience.

**Service:** Wood fence installation

**Positive:** Professionalism, Punctuality, Quality, Responsiveness, Value

I reached out to Mr. Jon Miller in 2021 to get an estimate for replacing my split rail fence. Estimate provided was just not in my budget so did not do any work at the time. Fast forward to Sept/Oct 2022, found out that he was working with my new neighbor to close off their fence on a corner lot. Reached out to him, he promptly stopped by and we worked on an alternative (replace wires, replace gates and put boards at the bottom of the fence all the way around).

Mr. Miller never at any time tried to oversell me. He was very respectful of my budget and worked with me on an option that worked for me. The crew was phenomenal. If they were unsure about something, they reached out before starting. Very professional crew all around. In times like these I give credit where credit is due, especially when it comes to value for a \$\$\$. Thanks for your service and not attempting to oversell me!

What a pleasant experience it was to buy and install a new fence from these folks. Jon, the salesperson was responsive, timely, followed the project every step of the way and did exactly what he said he was going to do. He worked with our budget and I felt like he really cared that we got the best product for the best price.

Chrissy in the office was awesome keeping us abreast of the scheduling. Salvador and Walter, the installers, did an amazing job. Those 2 guys did not stop working from the moment they arrived. They were careful with the trees and removed only what they needed to remove. They made sure to ask us which direction we wanted the gates, and paid attention to every detail, installing the caps on the posts with care. It may seem insignificant to some folks, but I really appreciate a fully completed project. We couldn't be happier. Not only will I recommend Armor Fence to everyone, I plan on using them again for another project!

Thanks to all.

I contacted Armor Fence because our neighbor suggested them. John was great! He knew exactly what I wanted and how to go about it, and what the HOA needed as well. He was always in direct communication. The crew that came out did an amazing job. I passed along the good news to our other neighbor and they also went with Armor fence.

Decks, Deck Cleaning

I searched everywhere for someone to restore my painted deck to a nice, semi-transparent stain that allowed the beautiful grains of the wood to show. The previous owners had just slathered on layer after layer of paint and the wood was splintering. Everyone else wanted to do similar applications, but John was willing to put in the elbow grease to do the job right and restore the wood to a more natural state. I am so glad we found him! He stripped the wood, sanded it, and stained it. He also removed a space-consuming built-in bench and placed it in a new place that gave us more room and a more finished look. So glad he suggested that change. We are now 1+ years out and just had him back to do a little yearly maintenance (tiny service fee) to keep it in tip-top shape for the many tiny feet that play on our deck. We are so pleased. I love finding someone that takes such pride in his work!

**Description of Work:** Finally, someone willing to do the hard work of restoring—not covering!

Deck Cleaning, Pressure Washing

Jon and his team did a good job cleaning our large deck and then applying several coats of stain. We recently added a new section to the deck and they paid extra attention to ensure that section was thoroughly covered. When we noticed some problems shortly after the initial staining, Jon was quick to work with us to remedy the issues, free of charge.

Deck Cleaning, Pressure Washing

Jonathan was a pleasure to work with. He gave us good advice on how to extend the life of our deck. He does not replace rotten boards so we hired someone else to do that work before he washed and stained the deck. He completed the work on our deck while we were on vacation. When we came home we were very pleased with the results.

Deck Cleaning

It took time to get on the carpenter's schedule and then back on Jonathan's schedule but he always responded promptly my inquiries and came through on my one concern: Completing the deck before winter weather would damage the new wood planks. Because our two-level deck is all-new on the upper level, where it was too weathered to restore, and old on the less exposed lower level, Jonathan wisely suggested that we needed a solid deck paint rather than a clear or semi-transparent stain. And he suggested a color that would pick up the gray from our gray-blue siding. We were skeptical, but got a paint sample and realized he was right. Once we decided on the color he bought it the next day and did the work over the following two days. Our job ended up being more expensive than we assumed — but that's because we had to spend \$2,000 separately on the replacement carpentry. I would recommend My Deck Guy enthusiastically.

Description of Work: I asked to have my badly worn deck restored. Jonathan of My Deck Guy recommended a friend (I think related by marriage — Mark Petro of Catoctin Builders) who does carpentry to replace a lot of worn boards before Jonathan returned to do the deck refinishing.

Deck Cleaning, House Painters, Pressure Washing

Jonathan met with us in person to discuss the job and provided a written estimate within a few days. We did not want the deck spray painted due to a negative experience from another company in the past. Jonathan assured us that he would hand paint the deck and would take care to protect the pond adjacent to it. Jonathan lived up to all his promises and has done a fantastic job in making our 25-year-old deck look like new!

Deck Cleaning

Jonathan is amazing to work with. So professional, and easy going. We had a deck project that should have been done in a week, but with all the rain we had in June and July he could never get to finish the various steps. However, he was always telling us by email when he would be over and what the next steps were. We went through all the various stain products and he made suggestions for what would look best on our deck and play structure. I loved working with Jonathan he is very skillful and takes enormous pride in his work. The quality is superior and he makes sure everything is done right. I would highly encourage anyone looking to have any kind of deck work to contact Jonathan.

Description of Work: Jonathan sanded, stained, replaced rotten boards, and sealed our weathered deck and play structure with absolute professionalism and excellent quality.

## Deck Cleaning, Decks

We were/are very happy with Jon's work and results on our deck. I only gave Jon a B for punctuality because he is super busy and has a "day job" as well. That is not a reflection on the quality of service he provides however. In fact, I would say just the opposite, as some things in life are worth a little extra wait while he finishes up his previous job. Where as most of the larger companies would've just come in and sprayed stain on the deck (and likely the river rocks underneath of it) without taking the necessary steps and precautions, Jonathan does not do that. He does it the right way, all by hand and brush, multiple coats. If you can get him, I'd recommend him time and time again without hesitation. In addition, he is a VERY nice man!

Deck Cleaning, Decks, House Painters, Pressure Washing

Jon came out to look at the deck and then emailed an estimate. We were told that he would refund the cost of whatever sealant was not used. We were on his schedule within a week. We moved all of the plants and deck furniture indoors but the big propane grill and one large planter were too heavy to manage. He told me not to worry and indeed he moved them himself so that he could wash underneath these items. There were no splashes on the planter or grill cover. Jon provided us with a wide range of sealant types and colors. He wanted to do the sealing within two days but we had rain every day for over a week. He showed up on the first sunny day even though it was a Saturday. The only access to our deck is from inside the house but he used his own extension ladder to reach it. That was a relief because we have had some bad experiences with workers bringing their equipment up the indoor stairs and across the living room carpet to get out to the deck from indoors. Jon was very neat and professional. He does all of the work himself. We couldn't be happier with the result. The deck looks like new!

Description of Work: Jon power washed the our large deck and then sealed it with a semi-opaque stain.

## Deck Cleaning, House Painters, Pressure Washing

This is the second time that we have used Jonathan to clean, seal and stain our deck. We were impressed by the quality of the work from the effort years earlier, and based on the thoroughness of the job and quality of materials, it lasted many years without additional service. The job went very well. Due to weather, he was not able to begin the effort as soon as we had hoped, but once he was able to begin the job, he completed in a timely fashion. We have an ornamental pond and shrubs abutting the deck and he was mindful of any overspray into and onto them. He cleaned up after the job was completed and there was no evidence of the work, other than the nicely finished deck. Jonathan is very thorough and provides a great value for his service.

## Deck Cleaning, Pressure Washing

Jonathan did an excellent job with our deck. The cost of labor was \$1,100 and the rest was for the stain / sealer. He spent a lot of time filling in knot holes and sanding down railings that had been damaged by various critters. He brushed on the stain, which resulted in a very nice finished product with no mess. Jonathan also referred us to a great carpenter that made some minor adjustments to the deck. The entire process (power washing, sanding, staining) took several days, but our deck is quite large and Jonathan covered every inch by hand. His estimate was only slightly higher than another estimate we received from a different company that would have sprayed on the stain. He wasn't able to complete the work right away, but this is a second job for him. It was well worth the wait, though, as the finished deck looks great! Jonathan is professional and courteous -- we're very pleased with his work.

We're very, very happy with Jon's work. We bought our house a couple of years ago, and it was clear that the previous owners had not been keeping up on deck maintenance. The boards were faded, cracked, and producing tons of splinters. After putting it off for a while, we decided to get our deck refinished this Spring. We contacted three service providers found via Angi's List to get an estimate. One never called us back. One kept us waiting for a while and eventually gave us an estimate that was more than twice as much as what Jon quoted us. So, it was an easy decision to give our business to Jon, and we're glad we did. It took a couple months between the initial estimate and completion of services, but I'd chalk that up to this being the busiest time of year and Jon being in high demand. Jon kept in close contact with us via email, letting us know when to expect him, keeping us informed on what he was doing, etc. Now our deck looks fantastic, water beads up on the boards, and my kids can run around on it in bare feet without having to worry about splinters. :)

Description of Work: Deck refinishing: power washing, light sanding, applying stain/sealant

Deck Cleaning, Decks, Pressure Washing

Deck looks great (neighbor asked if I had a new deck) and the price was great . Due to the weather (those rainy week in June), it took a while to get the work finished, but he scheduled around the forecast and rain and insured that the product went on right and had the proper time to dry before the next rain. Labor cost was \$650 and the rest was product cost.

Description of Work: Power washed the deck and my concrete basement stairs and applied DeckOver to my deck.

Deck Cleaning, Decks, House Painters

Jon was professional, punctual, and in constant contact. He provided great suggestions regarding the type of paint to use as well as color (based on his experiences). He checked in with us to provide regular updates and to ask if we were pleased with progress along the way. He also made sure we understood the cost implications of any needed changes (e.g. an additional can of paint if/as needed, etc.). No surprises at all! We are delighted with the outcome - our deck is like a whole new space now...we are looking forward to spending more time outside this summer. We HIGHLY recommend Jon/My Deck Guy...he personally does the work and takes great pride in ensuring customer satisfaction!

Description of Work: Removed ugly old privacy lattice, completed minor carpentry as needed (added screws to tighten connections between boards, addressed nails that were sticking up, sanded a few locations) to prepare deck for painting, then painted deck, then installed solar light caps on top of short 4X4s that were exposed after removal of privacy lattice. Also hauled away all debris and discarded lattice.

## Deck Cleaning

My Deck Guy did not actually do the work for us but we felt it was important to notate this review based on their character and professionalism. I contacted them to have our deck sealed and John, the owner, contacted me back immediately stating that he was ill and unable to get out to do a quote and recommended another company that may be able to help me that was closer to our area. Well he not only made a terrific recommendation that we were very happy with but he also followed up afterwards to ensure we were taken care of and if there were any questions he could handle or answer pertaining to our needs. We felt this was above and beyond what other contractors would do and it was necessary to give My Deck Guy a positive review based on this. Again we did not have any work done so we did not grade him on his performance but was very impressed by their professionalism.

**Description of Work:** Provided a recommendation of another company because he was ill at the time and couldn't get out to perform a quote for us. I felt his professionalism, follow-up and even recommending another company deserves a positive review. This is a bit late from our original request but wanted to express a good service when we see it.

**Deck Cleaning**

We needed to have a very large deck cleaned and sealed professionally. We replied to an advertising flyer for a service estimate. The representative provided a written estimate that seemed reasonable for the job and recommended several different prospective products for staining the deck and went over the pros and cons of each. He explained that a stain would improve the appearance and would last a little longer than simply sealing the deck. The representative explained that based on weather and other commitments, the job would be accomplished over at least one weekend, and possibly longer. We opted for a fairly light stain and arranged for service. Upon completion, we paid the agree-upon service fee. The representative requested to return to review the job quality and returned for minor touchups to ensure an even and professional job. We added a tip and could not be more satisfied with the work.

**Description of Work:** Clean, stain and seal a pre-existing wooden deck.

## Deck Cleaning, Pressure Washing

John Miller (owner) just completed our deck power wash and refinishing and we are very pleased with the results. John does the work himself and our deck really looks better than new. The price was very reasonable considering the work that was done and we highly recommend his services. Len and Ruth Sackadorf

Description of Work: Power wash and refinish outdoor Brazilian Walnut deck .

## Deck Cleaning

The deck looks better than it ever has, John power washed the deck to remove the dirt, mold and candle wax. He sanded the areas that needed it as well. I did not anticipate this, but he knows what he is doing, so I now understand that the sealing will last longer as a result. John then sealed the deck with Behr deck sealer. He was able to get me a discount on the sealer too! The rain was a challenge for him, but he worked his way around it and in the end the deck looks amazing. Thanks John.

Description of Work: John did a fantastic job on our deck. He power washed and resealed the deck and it looks like new. This was a very challenging project because the weather was not cooperating, but John did a great job adjusting to the ever-changing weather and keeping me informed along the way. I was blown away with his professionalism. I highly recommend John, and he is now and forever "My Deck Guy"!
