

● **PurePhyto Pro**

Concentrated Live Phytoplankton Starter Culture

PurePhyto Pro is a high-quality, concentrated blend of live phytoplankton starter designed to establish strong, healthy cultures with minimal effort. It provides a clean, active inoculation source that integrates seamlessly into the Reef Geeks™ Pro Series workflow.

By starting with a vigorous, reliable culture, **PurePhyto Pro** helps reduce early-stage failures and supports consistent, repeatable phytoplankton growth from the very first batch.

Key Benefits

- Concentrated live phytoplankton starter culture
 - Promotes rapid culture establishment
 - Clean, stable, and reliable performance
 - Designed for consistent results batch after batch
-

Simple Dosing

PurePhyto Pro follows the same easy system used across the entire Pro Series, making culture setup straightforward and mistake-free.

Dosing:

500 mL Starter culture
