

# Reef Geeks™ CultureClean Pro

## Culture Prep & Sanitation Solution

### What it is

CultureClean Pro is a preparation and cleaning solution for culture vessels, tools, and workspaces.

### What it does

- Helps maintain clean culture environments
- Reduces cross-contamination risk
- Supports long-term culture success

### Why it's different

Designed to complement SteriMix Pro and Dechlor Pro as part of a **complete culture workflow**.

### DIRECTIONS:

#### For tools & bottles

1. Pre-clean if visibly dirty (soap + water)
2. Spray until surface is **evenly wet**
3. Let sit **1 minute**
4. Air-dry or wipe with clean lint-free towel

#### For work surfaces

1. Spray generously
2. Spread evenly
3. Leave wet **1–2 minutes**
4. Allow to air dry before use

#### For hands / gloves

- Spray or rub
- Let air dry fully
- No rinse required

### USE:

Surface sanitiser for culture prep

### Safety

- **Flammable** — keep away from flames/heat
- Use in **well-ventilated area**
- Do not spray near running electrical equipment
- Not for use directly in tanks or cultures
