**LOCAL AND GENERAL NEWS.**  
Diamond Head, 3 p. m.—Weather clear, wind light northeast.  
Boats from H. B. M. S. Champion had drill in the harbor this morning.  
Notice is given by the leading grocery stores of closing over Christmas.  
The P. G. band will give a moonlight concert at Thomas Square this evening.  
The S. S. Alameda is advertised to arrive from San Francisco tomorrow.  
A special meeting of Queen's Hospital trustees is called for Thursday at 10:30 a. m.  
Police Officers Holi and Kanaw have been promoted to the lieutenant in the first and third watches respectively.  
In sending your usual Christmas cheer do not forget Charlie Peterson, the faithful vigilante lookout at Diamond Head.  
Mr. A. M. Howett will call on the merchants of Honolulu for the usual Christmas present for Charlie Peterson of Diamond Head.  
Mrs. Neumann left on the steamer Claudine yesterday afternoon for Maui, where Mr. Paul Neumann is reported to be in ill health.  
There is no need to be perplexed about holiday gifts for young and old with the notice of the Golden Rule Bazaar before your eyes.  
District Magistrate Robertson returned from Maui on the steamer W. G. Hall yesterday, and resumed his duties on the bench this morning.  
Prices of oranges at the I. I. S. N. Co.'s stand this morning vary from \$1.10 to \$2 a hundred. The oranges are from Kona by the W. G. Hall yesterday.  
The places made vacant by the resignation of native police officers are being filled rapidly. At present thirty-two other native officers have been substituted.  
A small geography belonging to Mercedes Akau was found on Merchant street this afternoon. The owner can have same by application at the BULLETIN office.  
Opium is reported to be plentiful in town, the price of a tin being quoted at \$16. Over twenty foreigners, it is reported, are among the smugglers and sellers of the drug.  
A Chinaman named Kong Sai pleaded guilty to the unlawful possession of opium in the District Court to-day and sentence was suspended until tomorrow. With the exception of a fine of \$2 imposed on Kulaoka for drunkenness, nothing else was done.  
A big crowd watched the operations of replacing the rudder at the stern of the Mowara all day, a portion of whom found the deck of the barkentine Geo. C. Perkins a very convenient and comfortable place to watch from. As the rudder is now in position, in a few days the steamship may be expected to take her trial trip.  
The Bishop Museum at the Kamehameha Schools was open to visitors yesterday. A large number of people availed themselves of the opportunity of viewing ancient relics. Prof. Brigham, who lately returned from Australia, has added a collection of Fijian, New Hebridean, Samoan and Australian curios to the museum.  
**Miss Emma K. Kawewehi died at Lelele at 11 o'clock yesterday morning, the result of fever contracted about two weeks ago. The deceased was a sister of Mrs. Julia Starr Kapu, and was 20 years and 11 months old at the time of her demise. The funeral took place this afternoon at 2:30 o'clock, the place of interment being at Kawaiaho.**  
Committed for Embezzlement.  
A man named J. W. Radway was brought from Kauai this morning on the steamer James Makee, in charge of Deputy Attorney-General G. K. Wilder. He waived examination to a charge of embezzlement of over \$3000 from the Post Office at Lihue, and has been committed for trial. Radway is now confined in Oahu jail.  
Business dead? Not much! Leastwise it is not so with the California Feed Company. We have made a business for ourselves, which has steadily grown through all the hard times other people are complaining about. We have just secured from Mr. J. F. Colburn his old stand, corner Queen and Nuuanu streets, and taken possession of those large and convenient premises. We had to do so, because our old place at Lelele is too small for our fast-increasing business. In a few days the bark "Mauna Ala" will be here again with her fourth full cargo of Hay and Grain, bought by our Mr. J. N. Wright who will arrive on that vessel. We prefer to select our merchandise ourselves rather than have others do it, which means that we get better goods at a less price.  
We thank our many friends for their liberal patronage for the past three years, and hope by strict attention to a business we thoroughly understand to merit the patronage of as many more.

**AWAITING THE ANSWER.**  
What the Provisional Government Will Probably Do.  
Everything was quiet about the Police Station this forenoon, there being no signs of the armed mounted patrol and specials from the American League, as they call themselves. The only exception with any warlike appearance was the detachment of native police officers from the different watches who have been detailed to keep watch night and day in the rear of the Deputy Marshal's office. No arrests were made by the police last night.  
The town was in perfect quietness, everyone moving about listlessly. The only query generally propounded was, "When will the P. G. give the answer to Minister Willis' request?" As no one could give any light on it, the question went unanswered.  
Everything is as quiet and almost as still as a pleasant dream about the Executive building to-day. The watchman is not to be seen on the main tower, and the only soldiers in sight are those doing sentry duty.  
Very few people were doing business with the departments, and the chirp of a cricket in the hallways would have been a disturbance.  
Major Porter, secretary of the Foreign office, said no answer had yet been given by the Government to the request of United States Minister Willis for the relinquishment of power to the Queen. It would probably take a day or two to prepare the reply to the Minister's requisition.  
It is the general belief that the Councils yesterday decided to return a formal refusal to the Minister's demand for surrender.  
Minister Willis is reported to have asked the Provisional Government to give up the control of affairs peacefully. It is not known whether the Minister stated any time limit for the P. G.'s answer. The supposition is that he has not, but will allow a reasonable time to elapse before taking the next step. Whether that step will be to land troops in force, or to send a flag lieutenant to demand the evacuation of the public buildings, or some other mode of showing authority, is all matter of conjecture.  
Nobody is found who believes that the P. G. forces will make any resistance of arms to a military demonstration, great or small, of the United States. What the Government is evidently playing for is to compel Minister Willis to commit the United States Government to something that can be construed into warlike action. Then they would retire with a protest addressed to the President and Congress of the United States.  
A rumor is current this afternoon that Wilder's steamer Claudine is again to be chartered for a P. G. mission to San Francisco. This time it would be to carry the protest already submitted to be in contemplation. Mr. Wawn, the gentleman in charge of the steamship Mowara, said this afternoon that he is ready to undertake the mission, guaranteeing to beat the U. S. S. Corwin by three days.  
Many American and British naval officers were ashore in uniform last night. Some of them, on being asked if they were on duty, said they were waiting for instructions.  
A redcoat British marine was doing duty as an orderly at the British Consulate all forenoon. Major Woodhouse, H. B. M. Minister, and Capt. Rooke of the Champion were at the Consulate part of the morning.  
It was noticed to-day that the orderlies who came ashore from the U. S. warships wore cartridge belts instead of the usual white belt. One was asked as to why the change in belts. He answered, "Well, you see, we are ready to land at a moment's notice." Everything is in readiness aboard, awaiting the Minister's orders.  
Vice-Consul-General Boyd was asked this afternoon if the American Consulate had received any definite news as to when the revenue cutter Corwin was to leave for the Coast. His reply was: "We know absolutely nothing. If you want to know anything as to her leaving, you will have to spy Minister Willis."  
Police Spy McNabb and several others have been noticed prowling around the city front to-day in old clothes eagerly watching—no one knows what.  
Marshal Hitchcock arrived in one of Jim Carty's hacks at noon at the Police Station with two Winchester rifles. About half an hour later the captain on watch was detailed to station a policeman in the rear of the Marshal's office to keep those who were there quiet, as the Marshal was asleep.

**Hood's Cures**  
Even When Called Incurable  
Terrible Seize—Sciatic Rheumatism

Mr. Arthur Simon  
Of Galata, Ohio.  
"They said I was incurable, the doctors did, but the result has proven that Hood's Sarsaparilla was able to cure. I had Sciatic Rheumatism and was confined to my bed six months. Three physicians did not help me in any way."  
I Was Given Up to Die  
When I was in the terrible condition, unable to move hand or feet, I began to take Hood's Sarsaparilla. The first bottle had a little effect, and while taking the second, I gained so rapidly that I could sit up in my chair. My system had been so run down by other medicine, that it took me quite a while to recuperate. By the time I had taken four bottles of Hood's Sarsaparilla, I could walk around, and now as I have taken six bottles I can exercise and can do a good day's work. I do not feel that I can praise it enough."

**National Cane Shredder**  
PATENTED UNDER THE LAWS OF THE HAWAIIAN ISLANDS.  
THE UNDERSIGNED HAVE BEEN APPOINTED SOLE AGENTS FOR these SHREDDERS and are now prepared to receive orders. The great advantages to be derived from the use of the NATIONAL CANE SHREDDER are thoroughly established and acknowledged by Planters generally.  
The large number of Planters using them in the United States, Cuba, Argentine Republic, Peru, Australia and elsewhere, bear witness to the above claim.  
The use of the SHREDDER very largely augments the quantity of cane the mill can grind (25 to 50%), also the extraction of juice (5 to 12%). It is a great safeguard, making known at once the presence of any pieces of iron, stakes from cars, or anything which would be liable to damage the mill, and allowing ample time to remove same before damaging the mill.  
The SHREDDER is very strongly made, and from the manner of its operation it cuts or tears these pieces of wood or iron without often breaking the SHREDDER; and if anything breaks, it is simply some of the knives or cutters, which can be quickly and economically replaced. The SHREDDER, as its name indicates, tears the cane into shreds of varying lengths, perfectly opening it and allowing the mill to thoroughly press out the juices without requiring the immense extra power necessary to grind or crush the whole cane. The SHREDDER spreads the shredded cane uniformly and evenly to the mill rolls, and does away with the necessity of spreading the bagasse by hand between the mills, where regrinding is in use. No greater amount of boiler capacity is required to operate the SHREDDER than that which was sufficient for the mill, for the above reasons. We furnish full working drawings for the installation of our SHREDDERS, enabling any competent engineer to successfully install and start them.  
In ordering SHREDDERS from us, please send small sketch, showing the diameter and width of the mill rolls to which SHREDDER is to be connected, also the side (either right or left hand as you face the delivery side of the mill), upon which the mill engine is located, also the height from floor line to center of front mill shaft, and distance center shaft to front end of bed plate. These SHREDDERS are now being used by the Hilo Sugar Co. and Hawi Mill, Kohala, where they are giving great satisfaction.  
Prices and further particulars may be had by applying to

**National Cane Shredder**  
PATENTED UNDER THE LAWS OF THE HAWAIIAN ISLANDS.  
THE UNDERSIGNED HAVE BEEN APPOINTED SOLE AGENTS FOR these SHREDDERS and are now prepared to receive orders. The great advantages to be derived from the use of the NATIONAL CANE SHREDDER are thoroughly established and acknowledged by Planters generally.  
The large number of Planters using them in the United States, Cuba, Argentine Republic, Peru, Australia and elsewhere, bear witness to the above claim.  
The use of the SHREDDER very largely augments the quantity of cane the mill can grind (25 to 50%), also the extraction of juice (5 to 12%). It is a great safeguard, making known at once the presence of any pieces of iron, stakes from cars, or anything which would be liable to damage the mill, and allowing ample time to remove same before damaging the mill.  
The SHREDDER is very strongly made, and from the manner of its operation it cuts or tears these pieces of wood or iron without often breaking the SHREDDER; and if anything breaks, it is simply some of the knives or cutters, which can be quickly and economically replaced. The SHREDDER, as its name indicates, tears the cane into shreds of varying lengths, perfectly opening it and allowing the mill to thoroughly press out the juices without requiring the immense extra power necessary to grind or crush the whole cane. The SHREDDER spreads the shredded cane uniformly and evenly to the mill rolls, and does away with the necessity of spreading the bagasse by hand between the mills, where regrinding is in use. No greater amount of boiler capacity is required to operate the SHREDDER than that which was sufficient for the mill, for the above reasons. We furnish full working drawings for the installation of our SHREDDERS, enabling any competent engineer to successfully install and start them.  
In ordering SHREDDERS from us, please send small sketch, showing the diameter and width of the mill rolls to which SHREDDER is to be connected, also the side (either right or left hand as you face the delivery side of the mill), upon which the mill engine is located, also the height from floor line to center of front mill shaft, and distance center shaft to front end of bed plate. These SHREDDERS are now being used by the Hilo Sugar Co. and Hawi Mill, Kohala, where they are giving great satisfaction.  
Prices and further particulars may be had by applying to

**AN AGED HAWAIIAN GONE.**  
Samuel K. Hiram expired at the residence of his daughter, Miss Hattie Hiram, on the Plains at 10:30 last evening. The cause of death was old age, the deceased being over 90 years of age at the time of demise. He was a native of Houanau, South Kona, and left a family of three sons and one daughter to mourn his loss. One of the sons, Solomon K. Hiram, is the well-known vocalist of the Hawaiian National Band. The interment took place at Nuuanu Cemetery at 3:30 this afternoon.

**Business dead? Not much!**  
Leastwise it is not so with the California Feed Company. We have made a business for ourselves, which has steadily grown through all the hard times other people are complaining about. We have just secured from Mr. J. F. Colburn his old stand, corner Queen and Nuuanu streets, and taken possession of those large and convenient premises. We had to do so, because our old place at Lelele is too small for our fast-increasing business. In a few days the bark "Mauna Ala" will be here again with her fourth full cargo of Hay and Grain, bought by our Mr. J. N. Wright who will arrive on that vessel. We prefer to select our merchandise ourselves rather than have others do it, which means that we get better goods at a less price.  
We thank our many friends for their liberal patronage for the past three years, and hope by strict attention to a business we thoroughly understand to merit the patronage of as many more.
