WHARF AND WAVE.

When the steamer Hawaii returns to port, she will go on the marine railway for an overhauling.

The steamer Kinau will return from Hilo on next Tuesday, one day ahead of time. On her arrival she will be docked for a thorough cleaning.

The Australia will carry away a heavy shipment of bananas but very little sugar, and in consequence she will have to take 300 tons of coal for ballast.

The steamer Lehua is being refitted for the coming sugar season. A new smoke stack will be one of the new improvements. She will be placed on service at an early date.

The departure of the Hyacinth has been indefinitely postponed. The order to remain was received after coal and stores had been taken.

The Japanese steamer Nanshan left for Yokohama yesterday with about one hundred Japanese. The captain shipped a white crew in place of the eight mutineers, who were convicted the other day. William Bagley, James Barrington and J. Woolham, three local characters, are members of the new crew.

The steamship China was advertised to leave San Francisco on last Tuesday. She usually comes down in less than six days, and may be expected on next Monday. There was some talk along the front yesterday about the China attempting a record-breaking trip on her present voyage; if it is so, the agents of the steamers in Honolulu have not been apprised of the fact.

A SOUVENIR BADGE.

Sam McKeague Presented with One While in Pittsburg.

Sam McKeague, a member of the George de Long Post, G. A. R., recently returned home, after attending the twenty-eighth National Encampment of the Grand Army of the Republic, which was held at Pittsburg, Penn., on September 10th last. Mr. McKeague was delegated to represent his Post. He was, naturally, made a great deal of for traveling so far to take part in the encampment, and, just before he left for home, was presented with a handsome bronze badge. There were a limited number of the souvenir badges struck off, after which the die was destroyed. The material for the badges was obtained from an old cannon that had been stationed in the Alleghany arsenal. The cannon was donated by an Act of Congress to the Citizens' Executive Committee of Pittsburg for the purpose of making the souvenir badges. Each one was encased in a handsome box made of thin steel representing a section of a railroad rail. The committee, in presenting the badge, had this to say: "May the precious memories of the old cannon, as embodied in this badge, cheer and brighten your pathway through life and prove a valuable legacy to your children."

Comrade McKeague is justly proud of his badge.

A HYACINTH DIVER.

While at Work He Was Attacked by a Sea Monster.

H. M. S. Hyacinth,
Nov. 5, 1894.

A thrilling experience was had by our divers while employed in the operation of cleaning the Hyacinth's bottom on Saturday last. When working in the vicinity of the propellor, they were suddenly assailed by a terrible sea monster, and were driven to the surface, but not before one of them had lost his knife, and the other had his finger bitten. This was promptly attended to by the ship's surgeon, who brought all his medical skill to aid the sufferer. Again on Monday morning the men, nothing daunted retnewed the attack. Knives being useless they armed themselves with impromptu weapons such as cook's tormentors, harpoons, boarding pikes, etc. After an hour's hard struggle the daring submarine explorers brought their victim in triumph to the surface. It turned out to be a huge conger eel, measuring twelve feet in length. One of the divers, Mr. T. Menhennett, Gunnery Instructor and trained electrician, has been a diver for upwards of ten years and has practiced the art in nearly all the waters of the globe. He states that he has been in company of sharks and other ugly things but has never been attacked before. ONE INTERESTED.

A Lucky Whaler.

The steam whaler Narwhal, well-known here, has just reported at San Francisco. She has been on a cruise of three summers and two winters. Her trip will clear the owners $500,000. Even the seamen will come in for $1000 bonus each. The Narwhal brought down 9000 pounds of bone and 35,000 gallons of oil. In the summer of 1893 fifty-five whales were caught.

LONDON, Oct. 27.—A Madrid dispatch says: The Finance Committee of the Cortes has decided to establish a gold standard of currency for Porto Rico. The Mexican dollar will hereafter be used only as a basis of weight for the value of silver.

EX-INSPECTOR-GENERAL TALKS.

Was Employed to Prepare a Chinese Army Report.

A STORY OF SURPRISING FRAUDS.

All the Officers on the Make—A Demoralized and Inefficient Army—Money for its Use Simply Stolen—A Contrast With Japanese Conditions.

GOLD has been a power in every land since barter began. In some civilizations it can purchase articles that are not on sale elsewhere. Tales of official corruption in the far East have been coming out since communication was established. With attention now riveted upon the Asiatic war, all sorts of facts and reports are received. Some of these relate to flagrant abuse of power and dishonesty on the part of Government officials. Some of the Chinese here have declared that their country was being sold out by traitors. Nearly all agree that the greed of men in official positions has greatly crippled China. The following on the subject is a dispatch from Victoria, B. C.:

Among the passengers on the Empress of Japan was Major Richter, late of the Chinese army, who threw up his post of inspector general at Tien-tsin in disgust. He was formerly in the German army, and was commissioned by Li Hung Chang a couple of years ago to inspect all the troops of the regular militia and report on them and suggest reforms and improvements. He entered heartily on the work, but soon found it impossible to accomplish it.

He found corruption and fraud rampant, even his reports to Li Hung Chang being garbled and cut before they reached him, and he could accomplish nothing. The war with Japan was never expected, and when it came the Chinese were in a state of demoralization, poorly armed, poorly drilled and generally disorganized. Large sums of money had been expended to increase the efficiency of the army, but they had found their way into the pockets of greedy, avaricious officials.

After leaving China, Richter spent a short time in Japan and had a long conference with high Japanese officials at Hiroshima. When taxed with having given away valuable information, Richter laughed at the idea, for he said he could gain no information from them he could give to the Japanese. The Japanese had been preparing for war for several years. They had complete surveys of every port, the result of a large amount of open and also secret work by spies. Major Richter said they had excellent information as to the defenses of Tien-tsin.

They Need Furniture.

"Two pastors on Molokai" says Rev. O. P. Emerson in the Friend, "are greatly in need of a supply of crockery. One of them is about to entertain the brethern of the Maui and Molokai presbytery at their meeting; the writer thinks he has need of plates and tea cups, spoons, knives and forks. Two years ago he had not enough dishes to set a table for two after the most primitive fashion. We caught the other brother once making his tea and coffee in the came pot, and that was the kettle. We then bought a separate tea and coffee pot for him. These brethern have eked out a living only as they have raised their own taro, caught their own fish, and had their clothes given them. They are not loaded down with spare cash. For their sakes as well as for others in like need we would be glad of a larger furniture fund for pastors."

Death of an Estimable Woman.

Keliihoohuli died in Honolulu on November 4th, and on that day her funeral took place, and she was buried in the Kawaiahao Church grave yard. She was born in Pahoehoe, North Kona, at the time Kaahumanu made the tour of Hawaii. Her father was Kakao, and her mother was Kalaunui, of Hilo Kaipo. She married Kanaina, and one of her daughters is Mrs. J. L. Kaulukou. She was one of the old stock of natives, and a most estimable woman.

Wages of English Laborers.

The latest statistics given to the public by the British Labor Commission show that in the agricultural districts the weekly wages of laborers average $3.35, and in many cases the hours of labor are returned at twelve per day. These laborers live in hovels and subsist on vegetables, with meat once a week.
