

### Solution Spotlight: FireflyVR

#### Introducing FireflyVR

FireflyVR presents *The Sanctuary*, a Virtual Reality experience that provides tools to patients and clinicians to boost the effectiveness of mental health therapies. The current focus is set to prepare patients for effective ketamine therapy by using demonstrated methods to enhance therapeutic outcomes.

### TIPS FOR USING VR WITH KIDS

- Ensure NO history of seizures
- Observe for motion sickness
- Encourage them to stay seated
- Use screencast to allow guardians to view their experience in real-time
