

VITALI-CHI FREQUENCY A - Z INDEX

These frequencies may be made from a combination of flowers, herbs, essential oils and Earth minerals. The frequency of each ingredient has been captured and added to distilled water. They are to be used with Vitali-Chi Boost only and are not to be taken internally. Add 2 drops from each frequency bottle in your Wellbeing Box Set/s and place into the Boost bottle with water. For best results we recommend using Vitali-Chi Boost for 40 - 60 minutes daily. Longer periods of time or more frequent use will not harm but water must be drunk before and after each treatment to help release toxins from your body.

Please Note: On occasions, you may notice a physical or emotional detox. This may be felt as temporary feelings of fatigue, energy loss or sadness due to you letting go of past or current panic, paranoia, anger, resentment, remorse or distress or other internally held negative emotions. A release is a perfectly normal part of letting go and any feelings will subside with continued regular use of Vitali-Chi Boost. Should you feel uncomfortable due to a too rapid release, then postpone sessions for a day or two.

Do not switch on Boost: If you are pregnant, wear a pacemaker or suffer from epilepsy. However, you may use Vitali-Chi with the frequencies but without the Booster as a less energising alternative. This method of healing is not to be used in place of or postponement of traditional medical treatment, so if in doubt please see your Doctor.
