

Core Competencies

Incorporated in 2017, Home Answers is a general construction company that specialize in interior finishes and communications. In 2020 we increased our industry knowledge by completing and receiving the Capstone Award in Clark Construction's Strategic Partnership Training Program. In the same year we received our HUBZone, CBE, DBE, SBE and Section 3 Certifications.

What make us different from other construction firms are our safety measures and our quality control process. We use OSHA 10 certified staff members to mitigate on-site risk and to perform quality standard inspections. This enables us to ensure superior outcomes from the preconstruction stage until final completion.
