Subsidiary of IIC INC

# Chairman Message

**Dato Dr. Arshad Mahmood**, a visionary Chairman of International Investment Consortium Inc. and Executive Chairman of International Commercial Bank, is a renowned expert in design and finance, dedicated to driving global economic growth. With a profound commitment to empowering local communities, he leads strategic investments that foster rapid social and economic development.

“As the Owner of IIC Project Management Services EST, I am proud to lead a team that is dedicated to excellence, professionalism, and innovation

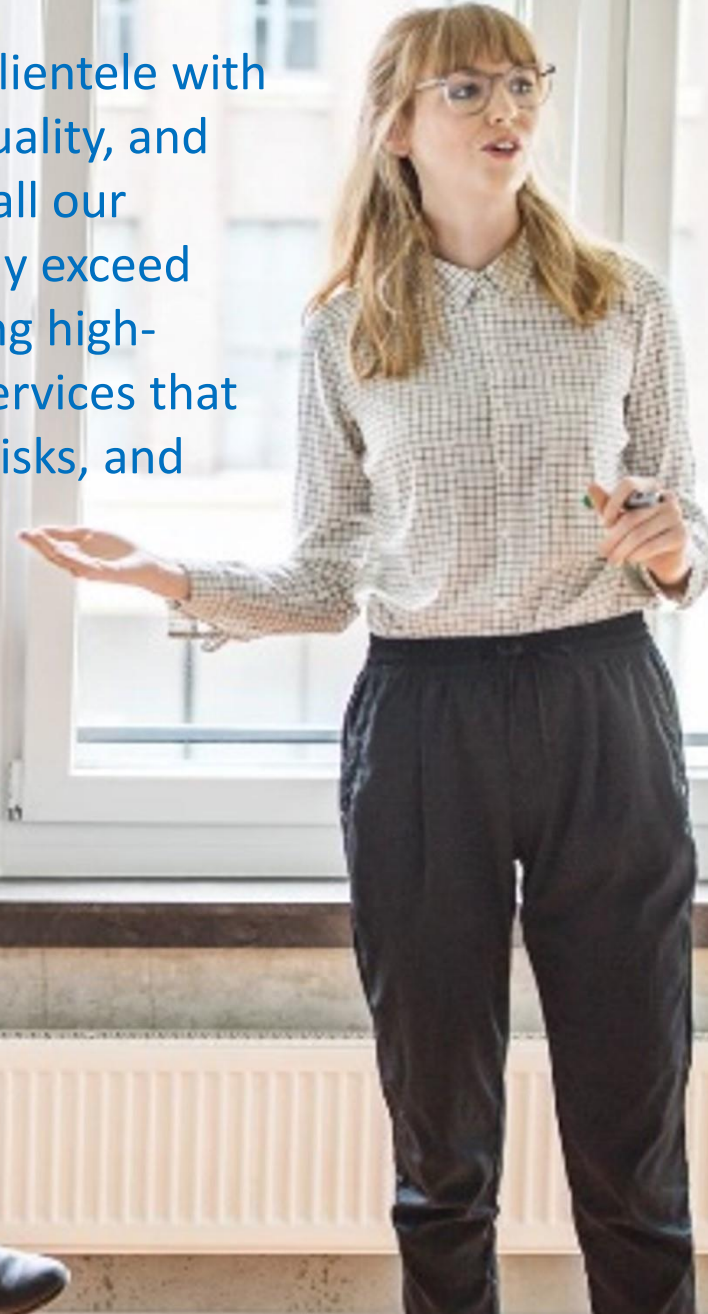

Our mission is to provide our clientele with the highest quality services, support by the state. Environmental sustainability is the foundation of Go Green as a business; therefore we have invested significant time and money into ensuring we are able to meet our present needs, without compromising the ability of future generations meeting their own needs.

We understand the importance of successful project management in today's dynamic business landscape, and our commitment is to ensure that our clients achieve their goals with efficiency and precision”

# Our Mission

Our mission is to provide our clientele with professionalism, the highest quality, and state-of-the-art technology in all our services. We aim to consistently exceed client expectations by delivering high-quality project management services that optimize resources, minimize risks, and ensure project success

# Our Vision

To emerge as the unequivocal and trusted leader in project management, consistently delivering successful and sustainable outcomes for our clients. We aim to be the top choice, embodying excellence and reliability in every facet of project execution, driving unparalleled success and long-term value for our partners

# Introduction

---

IIC INC is an asset-based investment consortium with a global presence. It provides Reserves and Foreign Exchange to the Country's Central Bank to restructure their outstanding loans, existing debts and build a loan-free economy.

The organization's core priorities include promoting economic justice, establishing a borderless infrastructure for efficient global movement, providing universal education, creating job opportunities, breaking the debt cycle, and contributing to global food security through rapid economic growth. Emphasizing collaboration with governments, international institutions, and corporate bodies, IC aims to bring about positive change without competing with existing entities

IIC INC is based in Kuala Lumpur, Malaysia and is the Parent Company having all of the below subsidiaries located world wide and handling different industries.

## **Manufacturing:**

IIC Project Management Services EST guides the manufacturing sector through complex processes, ensuring projects adhere to quality standards, production timelines, and best practices for successful outcome.

# Applied throughout the entire project lifecycle

# A Dynamic Innovative Approach

---

IICPMS brings experience and fresh thinking to each project challenge. These are the qualities that set us apart:

- Engineering first

We engineer the technical solution first, ensure it is executable, then deploy project management to guide it.

- Close client engagement

Our senior staff consult at the strategic and operational level and remain personally engaged from conceptual stage to handover.

- Comprehensive resourcing

Skilled resources may be scarce, but we access our network of professionals to deliver the specialist skills the project requires.

- Inherent industry understanding

Our knowledge and experience enhances the quality and accuracy of each study phase: the key to getting it right first-time

- Customized solutions

One size does not fit all - each client deserves a unique solution structured to specific needs.

# A Dynamic Innovative Approach

---

- 'Big picture' view

Throughout our involvement, we focus on the desired outcome regardless of where in the process our service is required.

- Quality over quantity

Appointing quality people and deploying effective systems allows us to do more with less. Quality is intrinsic in our end-product, our solutions and in all that we do.

- Flexible project execution

We review each project phase to improve the understanding of the specific solution required. If a change is necessary, we adapt accordingly to ensure a successful outcome.

- Building long-term relationships

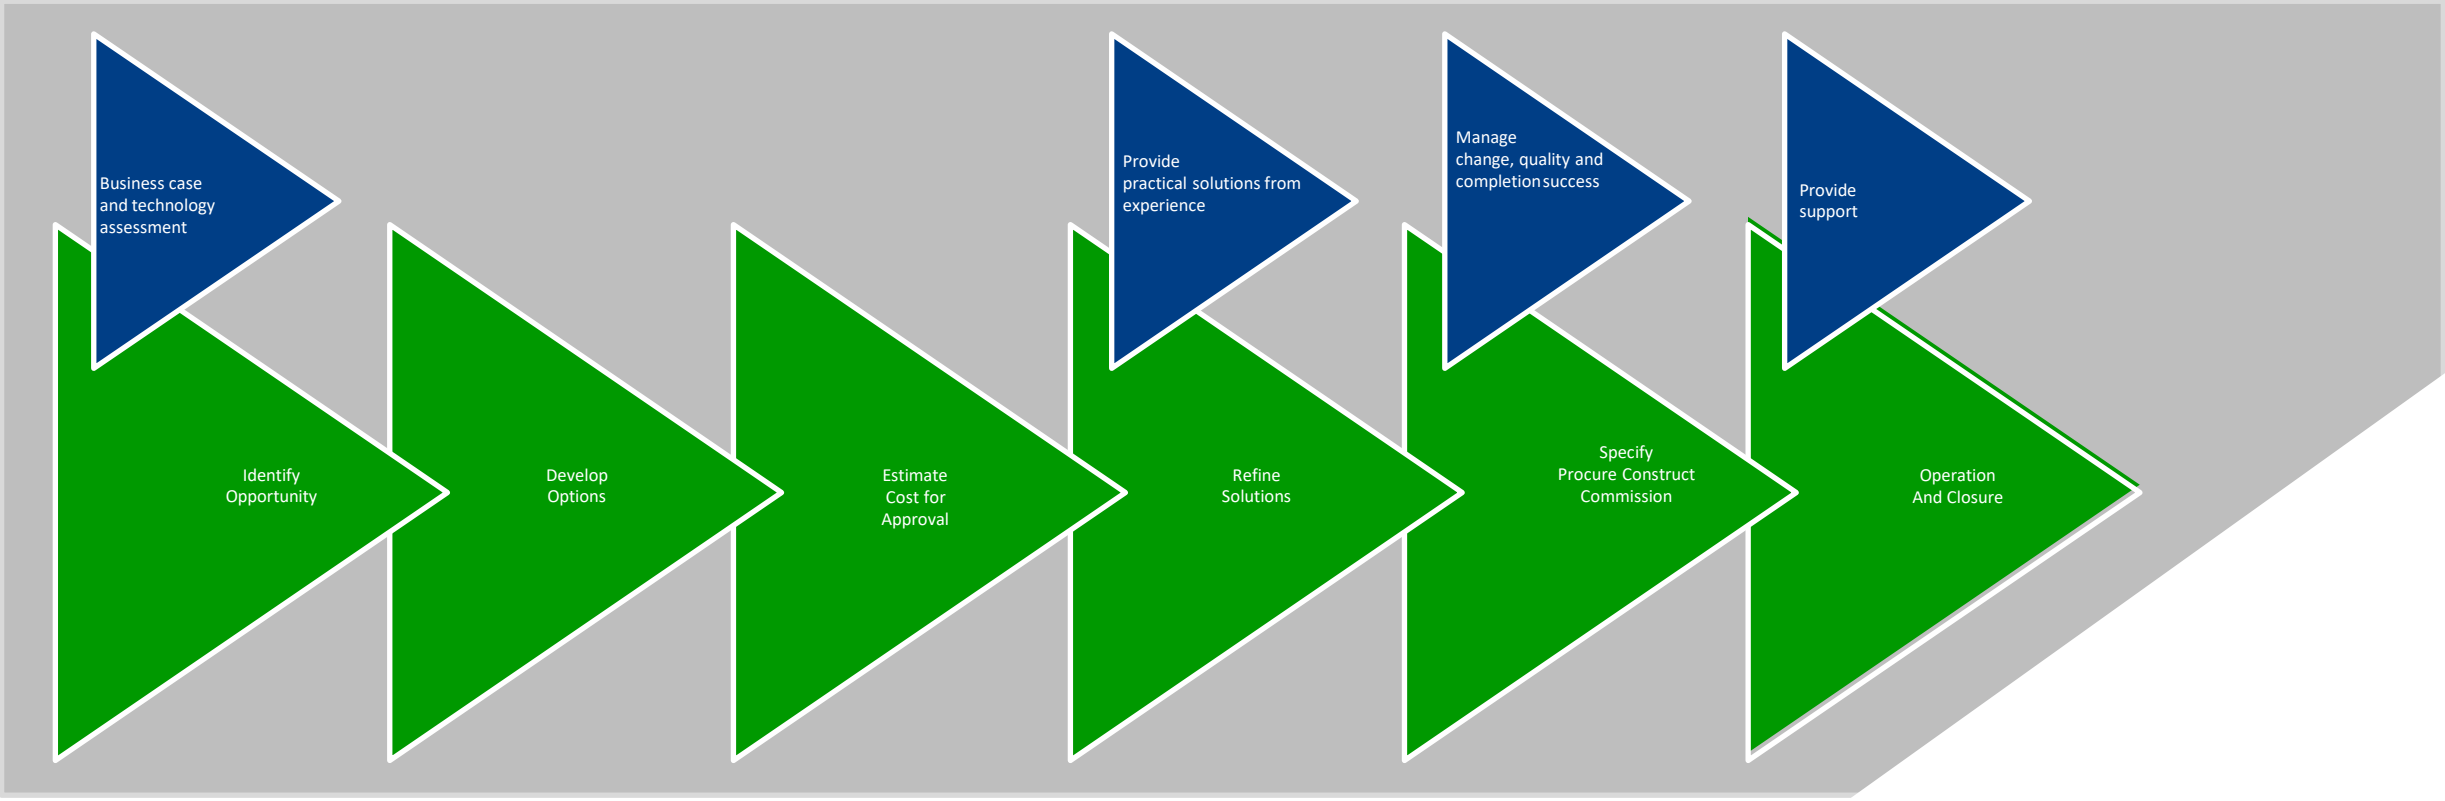

Our close client relationships extend beyond project handover; we remain mindful of their future needs and the role we can play in meeting them.

- Sustainable project development

A continuous commitment to protection of the environment and sustainable project development.

# Expertly Evolving Project Phases

# CLIENT FOCUSED PROJECT INTEGRATION MODEL

# Thank you
