

## John Madden

CAPS, CGP, CGB, CGR, Fortified Wise

### J.Madden Homes LLC

Tulsa, Oklahoma

As the founder and owner of J. Madden Homes for the past 20 years, John specializes in sustainable design, energy efficiency, and disaster mitigation projects. He is deeply involved in the home building community, serving as a 2021 member of the Board of Directors for the Home Builders Association (HBA) Greater Tulsa, the 2017 Chair for the HBA Greater Tulsa Home & Garden Show and the 2017 Director of the National Association of Home Builders Board of Directors. He was also named a 2020 NAHB Young Professional of the Year. In 2012, John was chair of the Home Builders GreenBlitz Tulsa Habitat for Humanity Project. His team built a house in just 5 days, and it was the first home in the nation to be built to ICC 700 National Green Building Standard and ENERGY STAR Version 3 certification requirements. John continues his commitment to green living and his community through his partnerships with Habitat for Humanity, Tulsa Partners, Sustainable Tulsa and Health Outreach Prevention Education, Inc. (H.O.P.E.). He is proud to be an integral part of designing, and building custom homes and commercial structures that feature decades of safe, efficient and sustainable living.
